

## ANNUAL INDEX

### Volume 38 2003

### Author Index

#### A

Abad, J.-L., 865  
Ackman, R.C., 299  
Ahn, D.U., 505  
Aitzenmuller, K., 1173  
Akbar, M., 453  
Akisawa, N., 519, 687  
Aknin, M., 85  
Alberghina, M., 45  
Alexson, S.E.H., 957  
Allison, D.B., 147  
Alonso, J.M., 761  
Alstrup, K.K., 513  
Ambrose, S.H., 179  
Andersson, R.G.G., 1057  
Anfuso, C.D., 45  
Araya, J., 275  
Arimitsu, H., 1107  
Armitage, J.A., 459  
Arnold, L.E., 1007  
Atlasen, P.Th., 1127  
Attar-Bashi, N.M., 665, 1113  
Aubert, C., 241  
Avato, P., 773  
Aveldaño, M.I., 73  
Awai, K., 1107

#### B

Bailey, A.L., 933  
Barassi, M.C., 415  
Bardi Community, the, 399  
Barnathan, G., 85  
Bartolini, G., 497  
Basabe, J.C., 733  
Baskaran, V., 705  
Basu, S., 15, 133  
Bauchart, D., 157  
Bazinet, R.P., 187, 477, 1045, 1221  
Beermann, C., 855  
Beker, B., 1085  
Bell, J.G., 723, 1031  
Bell, M.V., 39, 925  
Berge, R.K., 1023  
Berger, R.G., 1075  
Bernaconi, A.M., 733  
Berne, C., 15  
Biederman, J., 171  
Bieńkowski, T., 981  
Binas, B., 491  
Binford, P., 603  
Blanchet, C., 359, 399  
Block, J.-C., 1093

Boehm, G., 855  
Boeuf, S., 1133  
Bonen, A., 491  
Bonin, P., 1085  
Bordin, S., 1157  
Borod, E., 407  
Bottema, C.D.K., 539  
Bouchard, G., 595  
Boyle, R.M., 651  
Brandsch, C., 31  
Brenna, J.T., 425  
Brenner, R.R., 733, 827  
Bressers, M.A.J.J., 713  
Bretillon, L., 957  
Brock, B., 513  
Brooks, W.M., 9  
Budge, S.M., 781  
Burgess, J.R., 1007

#### C

Cabanes, J., 677  
Cadoret, A., 1093  
Calder, P.C., 343  
Calzada, C., 465  
Campbell, P.J., 1031  
Camps, F., 865  
Cansell, M., 551  
Carballeira, N.M., 769  
Carlson, S.E., 407  
Catalan, J.N., 431  
Ceruti, M., 201  
Chakraborty, S., 965  
Chan, O., 885  
Chao, A.C., 425  
Chardigny, J.-M., 157, 895  
Cheng, Y., 545  
Cherian, G., 1257  
Chiba, H., 1287  
Chicco, A., 733  
Chico, Y., 53  
Cho, K.-H., 1149  
Chojnacki, T., 981  
Christie, W.W., 573  
Christophe, A.B., 1  
Chuang, L.-T., 171  
Cleland, L.G., 419  
Cluette-Brown, J.E., 269, 1051  
Collomb, M., 657  
Colombo, C., 841  
Combe, N., 551  
Conrad, A., 1093  
Cook, M.E., 21  
Corbino, G.B., 567

Cordeau, S., 485  
Cornwell, D.G., 973  
Counans, W.A., 491  
Crampton, V.O., 723  
Crawford, M.A., 303  
Cristea, M., 1275  
Cruz, H., 769  
Cunnane, S.C., 187, 297, 303, 477, 1045, 1221  
Curi, R., 633, 1157  
Cury, Y., 633  
Czarnecki, S.K., 1115

#### D

Danaher, K.T., 1207  
Danikiewicz, W., 981  
de Alaniz, M.J.T., 525  
de Groot, W.A., 713  
De La Torre, A., 157  
De Vries, S.R., 1  
Deland, M.P.B., 539  
Delmonte, P., 579  
Delvin, E., 595  
Demcakova, E., 1023  
DeMichele, S.J., 171  
Demmelmair, H., 561  
Descalzo, A.M., 999  
Devaraj, S., 813  
Devery, R., 623  
Dewailly, É., 359, 399  
Dhont, M., 1  
Diao, G.-Y., 425  
Díaz, R.J., 1119  
Dick, J.R., 39, 723, 925, 1031  
Dobarganes, C., 233  
Dong, Z.-J., 81, 669  
Douglas, H., 187, 1221  
Drevon, C.A., 263, 1023  
Drewnowski, A., 109  
Du, M., 505  
Duan, R.-D., 549  
Dupas, C., 641  
Durand, D., 157

#### E

Eder, K., 31  
Egawa, T., 519  
Ekeroth, J., 1057  
Eldho, N.V., 445  
Endo, Y., 573  
Enzan, H., 519

Erickson, K.L., 377, 497  
 Eriksdottir, V.H., 1127  
 Escribano, J., 677

## Subject Index

### A

#### ABORIGINAL

health benefit gained from moving, people away from elements of adopted modern Western diet back to traditional diets, 399

populations of, peoples in Québec historically experience lower rates of ischemic heart disease, 359

#### ABSORPTION

phospholipids affect intestinal, of carotenoids in mice, 705

#### ACETYL CARNITINE

increased, formation during exercise, 9

#### ACTIVATED SLUDGE

fatty acid profiles of lipid fractions in extracellular polymeric substances of, flocs, 1093

#### ACYL-COENZYME A SYNTHETASE

eicosapentaenoic acid-induced apoptosis depends on, 263

lipid synthesis and, in developing rice seeds, 881

#### N-ACYLETHANOLAMINE PHOSPHOLIPIDS

brain levels of, in mice during pentylentetetrazol-induced seizure, 387

#### ACYL 2-DEOXYGLUCURONIDE

synthesis and characterization of, of deoxycholic acid as model compound to investigate possible utility as water-soluble affinity labeling reagent for lipophilic carboxylic acids, 873

#### ACYL GLUCURONIDE

biosynthesis of, by action of glucuronosyltransferases to material for detoxification, 873

#### ACYLTRANSFERASE

characterization of specific activity of expressed diacylglycerol, enzyme, 1197

#### N-ACYLTRANSFERASE

determination of activity of, in brain membrane preparations from adult and 3-d-old mice, 387

#### ADIPOCYTE VIABILITY

colorimetric assay used to determine, 1133

#### 3T3-L1 ADIPOCYTES

Western blot analysis of hormone-sensitive lipase in, 743

#### ADIPONECTIN

reduces hepatic glucose production, 497

#### ADIPOSE

fatty acid ethyl esters detectable in blood, liver and, tissue after ethanol ingestion, 269

#### ADIPOSE TISSUE

development of cell culture system for studying proliferation and differentiation of preadipocytes isolated from, of Atlantic salmon, 289

hyperphagia modifies fatty acid profiles of plasma phospholipids, plasma free fatty acids, and triacylglycerols, 1127

#### AFFINITY LABELING

water-soluble, reagent, 873

#### AGE

lack of accumulation of N-acylethanolamine phospholipid in adult rat brain may be caused by, -dependent enzyme pattern, 387

#### ALCOHOL

ethyl arachidonate is predominant fatty acid ethyl ester in brains of, -intoxicated subjects at autopsy, 269

#### ALCOHOL-FREE RED WINE

consumption of, increased levels of arachidonic acid, 275

#### ALCOHOLISM

normal physiologic concentrations of stearate in combination with blood ethanol level found in chronic, stimulates production of three predominant species of fatty acid ethyl esters in human hepatoblastoma cells, 1051

#### ALCOHOLYSIS

lipases used for selective preparation by, in organic media, 1197

#### ALKALINE LIPASE

cloning and expression of an, gene, 191

#### 1-O-ALKYL-2,3-DIACYLGLYCEROLS

fatty acid composition of, changed least with the introduction of n-3 polyunsaturated fatty acids in the diet, 73

#### ALLYL

presence of, chloro-, fluoro- or methyl-allyl group offers new direction for study of physiological and pharmaceutical properties, 1293

#### ALTERNATIVE BILE ACID PATHWAY

predominates before weaning, 1213

#### AMYLASE

positive correlation between flow rate and both protein concentration and, activity in olive oil group but not in sunflower oil group, 1119

#### ANANDAMIDE

is ligand for cannabinoid receptors, 387

#### *Androsace septentrionalis*

isomers of hexadecenoic and hexadecadienoic fatty acids in, (Primulaceae) seed oil, 1173

#### ANESTHETIZED RAT

chronic intake of diets differing only in type of fat added influences exocrine pancreatic secretion in, 1119

#### *p*-ANISIDINE VALUE

method for determination of, 1179

#### ANTHRANILICANILIDE

effect of, on conversion of dihomo- $\gamma$ -linolenic acid to arachidonic acid, 469

#### ANTICANCER AGENTS

both sulfoquinovosyl diacylglycerol and sulfoquinovosyl monoacylglycerol thought to be promising immunosuppressive and, 1065

#### ANTIGEN

fatty acid profile of inflamed muscle at, injection site in pig neck measured, 1221

#### ANTI-INFLAMMATORY

emu oil reported to have, properties, 603

#### ANTIOXIDANT

hydrophilic, Trolox®, less effective in preventing cyclization of internal hydroperoxy radicals, 65

2-hydroxyestradiol 17-sulfate as an, 847

lipophilic nitroxyl radical acting as, 225

#### AORTIC PHYSTOSTEROLS

serum and, in rabbits fed sitosterol or sitostanol esters, 1115

#### APOLIPOPROTEIN A-I

evaluation of, kinetics in rabbits *in vivo* using *in situ* and exogenous radioiodination methods, 209

#### APOLIPOPROTEIN C-II

role of, in very low density lipoprotein metabolism, 687

#### APOLIPOPROTEIN C-III

excessive amount of, attenuates lipoprotein lipase activity, 687

#### APOPTOSIS

effects of docosapentaenoic acid on neuronal, 453

icosapentaenoic acid-induced, depends on acyl coenzyme A-synthetase, 263

mode of cell death induced by vaccenic acid in cancer cells, 623

#### ARACHIDONATE

among polyunsaturates, undergoes least  $\beta$ -oxidation and carbon recycling, 477

ethyl, is predominant fatty acid ethyl ester in brains of alcohol-intoxicated subjects at autopsy, 269

#### ARACHIDONIC ACID

accretion of, in mammals greatest during prenatal and postnatal brain growth spurt, 171

average daily intake of, 391

genes regulated by, and oleic acid in Raji cells, 1157

has important role in immunoregulation, 1221

levels of, maintained with consumption of red wine and increased with alcohol-free red wine, 275

mechanism by which conjugated linoleic acid exerts anticancer activity

attributed to modulation of, distribution and metabolism, 623  
 other n-6 fatty acids including, replace docosahexaenoic acid in n-3  
 deficient rats, 431  
 potential role for, and docosahexaenoic acid in protection against some  
 central nervous system injuries in preterm infants, 303  
 synthesis of, decreased in human cells, 469  
 transfer of, from lymphocytes to macrophages, 633

*Asclepias syriaca*  
 extracts of seeds of, used as reference substances for comparison and  
 co-chromatography, 1173

ASCOMYCETE  
 linoleate diol synthase of the filamentous, fungus known as rice blast fun-  
 gus *Magnaporthe grisea*, 1275

ASCORBIC ACID  
 synergistic effect from combination of lipophilic nitroxyl radical with, in  
 liposomal membranes, 225

ASTERACEAE  
 biosynthetic potential to produce a number of unusual seed oils is charac-  
 teristic of, 573

ATLANTIC SALMON (*Salmo salar*)  
 effects of dietary vegetable oil on, hepatocyte fatty acid desaturation and  
 liver fatty acid compositions, 723  
 fatty acid desaturation and elongation in, 833  
*in vitro* method for studying proliferation and differentiation of,  
 preadipocytes, 289

ATTENTION-DEFICIT/HYPERACTIVITY DISORDER  
 effects of supplementation with polyunsaturated fatty acids on blood fatty  
 acid composition and behavior in children with symptoms of, who  
 also report thirst and skin problems, 1007

*Aurelia* sp.  
 occurrence of high levels of tetracosahexaenoic acid in the jellyfish, 1207

AURICULAR  
 topical emu oil has anti-inflammatory properties in CD-1 mouse associ-  
 ated with decreased, thickness and weight, 603

AUTOIMMUNE  
 dietary conjugated linoleic acid had beneficial effect in, F1 hybrid of New  
 Zealand Black mice and New Zealand White mice, 21

AUTOIMMUNITY  
 fatty acids, immune response and, 323

AUTOXIDATION  
 anticipated gradual change in composition of oil sample with progressive,  
 1179  
 of polyunsaturated fatty acids, 65  
 photochemical oxidation and, of chlorophyll phytol chain, 241

2,2'-AZOBIS-(2-AMIDINO-PROPANE)DIHYDROCHLORIDE  
 partitioned out of hydrophobic region of phosphatidylcholine, 65

2,2'-AZOBIS-(2,4-DIMETHYLVALERONITRILE)  
 free radical oxidation initiated by, 65

**B**

BARDI  
 fat, fishing patterns, and health among the, people of North Western Aus-  
 tralia, 399

BASIDIOMYCETE  
 ceramides from, *Cortinarius umidicola*, 669  
 new cerebrosides from, *Cortinarius tenuipes*, 81

BEHAVIOR  
 comparison of high  $\gamma$ -linolenic acid canola oil with borage oil on mouse  
 brain and, development, 171

BEVERAGE  
 phytosterols and novel foods and, 367

BIEBER, MARK  
 papers from memorial symposium, 93

BILE ACID  
 cholesterol and, concentrations in feces of rats, 919

BILE ACID METABOLISM  
 activities of several genes tightly associated with, and cholesterol  
 homeostasis, 1149

BILE ACID RECEPTOR  
 binds promoter regions of several target genes, 1149

BILE SALT MICELLES  
 mixed micelles have similar inhibitory effect on carotene transfer to oil as,  
 alone, 947

BIOAVAILABILITY  
 factors determining, of carotenoids from vegetables, 947

BIOSYNTHESIS  
 liver thought to be main region of polyunsaturated fatty acid,  
 in vertebrates, including fish, 39

BIRTH WEIGHT  
 low intake of n-3 fatty acids from docosahexaenoic acid alone could  
 increase length of gestation and, 407

BLANCHING  
 effect of, procedure on chloroplast structure, 933

BLOOD CHOLESTEROL  
 plant sterols inhibit intestinal absorption of cholesterol leading to lowered,  
 levels, 713

BLOOD PLATELET ACTIVATION  
 influence of docosahexaenoic acid and pathophysiologic role of redox  
 status in, 465

BLOOD PRESSURE  
 perinatal n-3 fatty acid deficiency and, 459

BODY COMPOSITION  
 conjugated linoleic acid isomers and fenofibrate induce different changes  
 in, 497  
 effect of conjugated fatty acid on feed intake, liver fatty acid, and, in mice,  
 895

BODY FAT  
 effect of conjugated linoleic acid on, 377  
 supplementation with conjugated linoleic acid: isomer incorporation into  
 serum lipids and effect on, of women, 805

BODY MASS INDEX  
 genetic influences on, 147

BODY WEIGHT  
 conjugated linoleic acid and, regulation in humans, 133  
 dietary fat and, control, 123  
 dietary glycemic index and the regulation of, 117  
 role of energy density on regulation of food intake and, 109

BODY WEIGHT WASTING  
 conjugated linoleic acid protected against, in F1 hybrid New Zealand  
 Black/White mice, 21

BONE  
 impact of dietary n-3 fatty acid deficiency on rat, tissue fatty acid compo-  
 sition, 683  
 routing and *de novo* synthesis of, lipids, 179

BORAGE OIL  
 fatty acid compositions at 2-position in cocoa fat, tuna oil, and, analyzed  
 by Grignard degradation and enzymatic ethanolysis, 1281

BOVINE MILK  
 enterotoxicigenic *Escherichia coli* strains bind, gangliosides in a ceramide-  
 dependent process, 761

BOVINE PULMONARY SURFACTANTS  
 analytical procedures allow rapid and accurate analysis of mixture of  
 phospholipids present in, 999

BRAIN  
 fatty acid ethyl esters in, tissue of alcoholic humans, 269  
 N-acyl ethanolamine phospholipids in, of mouse, 387  
 resistance of, membranes to loss of arachidonate during dietary deficiency  
 of n-6 polyunsaturates, 477

BRAIN DEVELOPMENT  
 effects of high- $\gamma$ -linolenic acid canola oil compared with borage oil on  
 reproduction, growth and behavior, and, in mice, 171  
 fatty acyl composition during, 431

BRAIN FATTY ACID COMPOSITION  
 during brain development, 431

BREAST MILK  
 infants who do not consume, or formula containing docosahexaenoic acid  
 must rely on their own stores or their ability to elongate and desatu-  
 rate  $\alpha$ -linolenic acid from infant formula, 1045

BROILER CHICK  
 dietary conjugated linoleic acid affects lipid metabolism in, 505  
 maternal dietary fatty acid modulates long-chain n-3 polyunsaturated fatty  
 acid status of, cardiac tissue, 1257

**BRONCHOPULMONARY DYSPLASIA**  
complications of preterm, very-low-birth-weight babies include, 303

**BROWN ADIPOSE TISSUE**  
seems to be more susceptible to conjugated linoleic acid treatment, 1133

**BUTTERMILK**  
transacylation of, gangliosides, 855

**C**

**CAAT ENHANCER BINDING PROTEIN  $\alpha$**   
regulatory protein associated with adipocyte differentiation, 289

**CALCIUM**  
lack of stereospecificity in lysophosphatidic acid enantiomer-induced, mobilization in human erythroleukemia cells, 1057

role of dietary, and dairy products in modulating adiposity, 139

**CALENDIC ACID**  
significantly decreased body fat in male mice but had little effect in female mice, 895

**CAMPESTEROL**  
question of possible atherogenicity of, 1115

**CANADA**  
history of fats and oils in, 299

*Candida antarctica* LIPASE  
regiospecific analysis by ethanolysis of oil with immobilized, 1281

**CANINE PROSTATE TISSUE**  
lipids and fatty acid analysis of, 665

**CAPILLARY GAS-LIQUID CHROMATOGRAPHY**  
structure and composition of constituent fatty acids of *Androsace septentrionalis* determined by various methods including, 1173

**CAPRYLIC ACID**  
production of specific structured triacylglycerol by batch interesterification of, and linoleic acid, 903

**CARBOHYDRATE**  
regulation by, and clofibrate acid of palmitoyl-coenzyme A chain elongation in the liver of rats, 531

**CARBON ISOTOPES**  
natural abundance stable, evidence for the routing and *de novo* synthesis of bone fatty acids and cholesterol, 179

**CARBON RECYCLING**  
from polyunsaturated into lipid synthesis, 477

**CARBOXYETHYL-HYDROXYCHROMANOLS**  
effect of vitamin E supplementation on, 813

**CARDIOVASCULAR DISEASE**  
fish consumption highly protective toward, 415

low-fat functional foods using phytosterols more valuable in promotion of healthy eating in population at higher risk of, 367

**CARDIOVASCULAR RISK FACTOR**  
fatty acids and, 359

**CARNITINE PALMITOYLTRANSFERASE I**  
mitochondrial, is enzyme that catalyzes transformation of long-chain fatty cholesterol acyltransferase esters to acylcarnitine, 485

**CAROTENOIDS**  
modeling duodenal environment through solubilization of, from carrot juice and spinach in lipid phases, 947

modeling gastric lumen through solubilization of, from carrot juice and spinach in lipid phases, 933

phospholipids affect intestinal absorption of, in mice, 705

**CARROT**  
modeling duodenal environment through solubilization of carotenoids from juice and spinach in lipid phases, 947

**CATTLE**  
differences in  $\Delta 9$ -desaturase activity between Jersey- and Limousin-sired, 539

**CECA**  
pyloric, are significant sites of newly synthesized docosahexaenoic acid in rainbow trout, 39

**CELL MEMBRANE**  
formation of sphingolipid clusters in, 855

**CELL SUSPENSION CULTURES**  
examination of properties of microsomal acyl-coenzyme A:lysophosphatidylcholine acyltransferase from microspore-derived, of *Brassica napus*, 651

**CELLS**  
thermochemicalysis of thiol adducts with proteins and in, 973

**THP-1 CELLS**  
pharmacological modulation of fatty acid desaturation and of cholesterol biosynthesis in, 841

**CERAMIDE(S)**  
bovine enterotoxigenic *Escherichia coli* strains able to discriminate among several ganglioside species differing only in composition of, 761

comparison with enzymatic sphingolipid, N-deacylase-catalyzed fatty acid exchange, 855

from basidiomycete *Corticarius umidicola*, 669

new glycerolipid and, from *Premna microphylla*, 1299

**CEREBROSIDES**  
from basidiomycete *Corticarius tenuipes*, 81

**CHARACTERIZATION OF DEGRADATION PRODUCTS**  
of senescent cells from two phytoplanktonic strains, 241

**CHEMILUMINESCENCE DETECTION**  
reversed-phase high-performance liquid chromatography with postcolumn, also performed, 1287

*Chenopodium album*  
nonpolar lipid composition of, grown in intensively-cultivated and non-disturbed soils, 567

**CHILDHOOD BEHAVIOR**  
effects of supplementation with polyunsaturated fatty acids on blood fatty acid composition and, 1007

**CHLORO-**  
presence of, fluoro-, allyl, or methyl-allyl group offers new direction for study of physiological and pharmaceutical properties, 1293

**CHLOROPHYLL PHYTYL SIDE CHAIN**  
photochemical oxidation and autoxidation of, in senescent phytoplanktonic cells, 241

**CHLOROPLAST**  
effect of blanching greater on spinach, than carrot chromoplast, 933

**5 $\beta$ -CHOLANE DERIVATIVE**  
functionalization of inactivated carbons in 3 $\alpha$ ,6- and 3 $\alpha$ ,24-dihydroxy-5 $\beta$ , by dimethyldioxirane, 281

**CHOLECYSTOKININ**  
unknown whether endogenous level of, affected by type of fat, 1119

**CHOLESTEROL**  
carbon from oxidized fatty acid incorporated into newly synthesized, or fatty acids, 477

comparative effects of flaxseed and sesame seed on vitamin E and, levels in rats, 1249

effect of conjugated linoleic acid supplementation on total, 805

effect of plicosanol and phytosterols on lipid levels and, biosynthesis in hamsters, 165

examination of, -lowering efficacy of plant sterols, 367

natural abundance stable carbon isotope evidence for the routing and *de novo* synthesis of bone fatty acids and, 179

plasma membrane neutral sphingomyelinase may have specific, ceramide-independent effect in regulation of, output pathways in hepatocytes, 53

regulatory effect of, on 3T3-L1 adipocytes, 743

serum, level of rabbits fed control diet, 1115

**CHOLESTEROL ABSORPTION**  
effect of structure and form on the ability of plant sterols to inhibit, in hamsters, 713

**CHOLESTEROL ESTERS**  
very long chain polyunsaturated fatty acids in murine testicular triacylglycerols and, 73

**CHOLESTEROL 27-HYDROXYLASE**  
baboon liver biopsies assayed for, 1213

**CHOLESTEROL 7 $\alpha$ -HYDROXYLASE**  
actions of, is one of several complex mechanisms that tightly regulate bile acid production and cholesterol homeostasis, 1149

**CHOLESTEROL 7 $\alpha$ -HYDROXYLASE mRNA**  
levels of hepatic, in enzyme-resistant fraction of adzuki starch and

enzyme-resistant fraction of tebou starch groups significantly higher than in the cellulose powder group, 919

**CHOLESTEROL SYNTHESIS**  
inhibitory effect of policosanols on, 165  
pharmacological modulation of fatty acid desaturation and of, in THP-1 cells, 841

**CHOLESTERYL ESTER METABOLISM**  
activation of, and biliary cholesterol secretion and inhibition of very-low-density lipoprotein secretion, 53

**CHOLESTERYL ESTERS**  
and phospholipids in maternal and cord plasma, 1  
effect of conjugated linoleic acid supplementation on, 805

**CHROMOPLAST**  
effect of blanching greater on spinach chloroplast than carrot, 933

*Chrysanthemum (Tanacetum) zawadskii* HERB  
novel isomeric octadecatrienoic acid from, 573

**CHYLOMICRON**  
and very low density lipoprotein triacylglycerol structures, 693

**CLASSIC BILE ACID PATHWAY**  
predominates after weaning, 1213

*Clavularia viridis*  
localization of clavulones within, the Okinawan soft coral, 991

**CLAVULONES**  
localization of, within the Okinawan soft coral *Clavularia viridis*, 991

**CLOFIBRIC ACID**  
regulation by carbohydrate and, of Palmitoyl-coenzyme A in the liver of rats, 531

**CLONING**  
and expression of an alkaline lipase gene, 191

**COCOA BUTTER**  
triglycerides containing stearic acid synthesized from coconut oil exhibit lipidemic effects in rats similar to those of, 913

**COCONUT OIL**  
triglycerides containing stearic acid synthesized from, exhibit lipidemic effects in rats similar to those of cocoa butter, 913

**COMBINATION THERAPY**  
subjects with rheumatoid arthritis entered into program of, 419

**CONDUCT DISORDER**  
Disruptive Behavior Disorders Rating Scale assesses four types of behavior including, 1007

**CONJUGATED LINOLEIC ACID**  
and body weight regulation in humans, 133  
determination of, in major human plasma lipid classes using combination of methylating methodologies, 793  
dietary, affects autoimmunity in mice, 21  
dietary, affects lipid metabolism in broiler chicks, 505  
dietary, and docosahexaenoic acid modify skin properties in mice, 609  
enzymatic oxidation of, 255  
isomers and lipid metabolism, 497  
mixture of octadecadienoic acids with conjugated double bonds, 579  
protection of paraoxonase 1 by, 615  
treatment with, significantly decreased fat content in males as well as in females, 895

**CONJUGATED LINOLEIC ACID ISOMERS**  
content of serum triacylglycerols, phospholipids and total lipids increased two to five times with conjugated linoleic acid supplementation, 805  
hepatic metabolism of, in rats, 157  
in milk lipids, 657

**CONJUGATED LINOLEIC ACID SUPPLEMENTATION**  
isomer incorporation into serum lipids and effect on body fat of women, 805

**CIS-9,TRANS-11 CONJUGATED LINOLEIC ACID**  
content of, in milk fat of different origins, 657

**TRANS-7,CIS-9-CONJUGATED LINOLEIC ACID**  
synthesis and isolation of, 579

**TRANS-11,CIS-13 CONJUGATED LINOLEIC ACID**  
hypothesis that linolenic acid is an indirect precursor of, 657

**CONTINUOUS SPECTROPHOTOMETRIC ASSAY**  
determination of phospholipase activity of patatin by, 677

**COPPER ION**  
paraoxonase 1 susceptible to oxidative inactivation by hydrogen peroxide or, 615

**CORE ALDEHYDES**  
identification and quantification of triacylglycerol, 1179

*Cortinarius tenuipes*  
new cerebrosides from basidiomycete, 81

*Cortinarius umidicola*  
ceramides from basidiomycete, 669

**CREE**  
comparison of fish intake and plasma phospholipid concentrations of n-3 fatty acids among Québécois, Inuit, and, 359

**CROTON OIL**  
antagonism of, inflammation by topical emu oil in CD-1 mice, 603

**CURCUMIN**  
and nicardipin decreased  $\Delta 5$  desaturation with limited effect on cholesterol synthesis, 841

**CYANOLIPIDS**  
seeds of many species of Sapindaceae rich in oils that contain acylglycerols and, 773

**CYCLIC FATTY ACIDS**  
peroxisome proliferator-activated receptor  $\alpha$  not exclusive mediator of effects of dietary, in mice, 957

**CYCLING**  
intramycellar lipid significantly decreases in response to interval, in moderately trained subjects, 9

**CYCLOHEXANE-1-SPIRO-2'-(4'-OXYIMIDAZOLIDINE-1'-OXYL)-5'-SPIRO-1"-CYCLOHEXANE**  
antioxidant action of a lipophilic nitroxyl radical, against lipid peroxidation under hypoxic conditions, 225

*Cystodytes violatinus*  
phospholipid fatty acids from Indian Ocean tunicates *Eudistoma bituminis* and, 81

**CYTOCHROME C OXIDASE**  
measurement of, activity, 965

**CYTOCHROME P450**  
cloned and purified hydroperoxide lyases found to be heme proteins belonging to, family, 1167

**CYTOKINE(S)**  
effect of fatty acids on, production by Raji cells, 1157  
effects of fish oil on inflammatory eicosanoid and, production, 343  
intrauterine exposure to chorioamnionitis or proinflammatory, shown to induce pulmonary and systemic inflammatory response in fetus, 303  
topical emu oil has anti-inflammatory properties in CD-1 mouse associated with, interleukin-1 $\alpha$  and tumor necrosis factor- $\alpha$ , 603

**CYTOTOXICITY**  
investigation of, on cultured cells, 1065

**D**

**N-DEACYLASE**  
catalyzes condensation reaction between free fatty acids and sphingolipids, 855

**DEFERRED EFFECTS**  
of preweaning diet on atherosclerosis in adolescent baboons, 1213

**DEFICIENCY**  
effects of n-6 polyunsaturated fatty acid, on growth in rats, 187

**DENATURED BOVINE SERUM ALBUMIN**  
stimulating activity of, 965

**DEOXYCHOLIC ACID**  
description of synthesis and characterization of acyl 2-deoxyglucuronide of, as model compound, 873

**DEOXYRIBONUCLEIC ACID POLYMERASE**  
inhibitory action of emulsified sulfoquinovosyl acylglycerol on mammalian, 1065

**DEOXYRIBONUCLEIC ACID TOPOISOMERASE II**  
sulfoquinovosyl diacylglycerol and sulfoquinovosyl monoacylglycerol are potent inhibitors of, 1065

**DESATURASE(S)**  
differences in  $\Delta 9$ -, activity between Jersey- and Limousin-sired cattle, 539

influence of temperature and high dietary linoleic acid content on, activity of polyunsaturated fatty acids in Atlantic salmon hepatocytes, 833

**Δ5-DESATURASES**

effect of sucrose diet on hepatic activity of, and Δ6-desaturases, 733  
fatty acid, necessary for production of arachidonic acid and eicosapentaenoic acid from polyunsaturated fatty acid precursors, 469  
hepatic Δ9-, Δ6-, and, in non-insulin-dependent diabetes mellitus e  
Stillman-Salgado rats, 827

simvastatin decreases cholesterol synthesis and increases linoleic acid conversion to long-chain derivatives, activating Δ6- and, 841

**Δ6-DESATURASES**

effect of sucrose diet on hepatic activity of, and Δ5-desaturases, 733  
effect of, inhibitor on polyunsaturated fatty acid metabolism in human cells, 469  
hepatic Δ9-, Δ5-, and, in non-insulin-dependent diabetes mellitus e  
Stillman-Salgado rats, 827

simvastatin decreases cholesterol synthesis and increases linoleic acid conversion to long-chain derivatives, activating Δ5- and, 841

**Δ9-DESATURASES**

effect of sucrose-rich diet vs. starch diet during short and long treatment on hepatic activity of, 733  
hepatic Δ6-, Δ5-, and, in non-insulin-dependent diabetes mellitus e  
Stillman-Salgado rats, 827

mechanism by which conjugated linoleic acid exerts anticancer activity attributed to inhibition of, 623

**DESATURASE INHIBITORS**

study of activity of fluorinated fatty acids as substrates and, involved in biosynthesis of sex pheromonal blend of *Spodoptera littoralis*, 865

**DESATURASES mRNA**

effect of sucrose diet on Δ6, transcription, 733

Northern blot determinations of, 827

**DESATURATION**

effects of dietary vegetable oil on Atlantic salmon hepatocyte fatty acid, and liver fatty acid compositions, 723

**DETERGENT(S)**

kinetics of barley fatty acid hydroperoxide lyase modulated by salts and, 1167

**DEVELOPMENT**

of intestinal alkaline sphingomyelinase in rat fetus and newborn rat, 545

**DIABETES**

hepatic Δ9-, Δ6-, and Δ5-desaturations in non-insulin-dependent, mellitus e  
Stillman-Salgado rats, 827

sedentary lifestyle and risk of obesity and type 2, 103

**DIACYLGLYCEROL**

characterization of specific activity of expressed, acyltransferase enzyme, 1197

metabolism of, in the intestine, 25

**DIACYLGLYCEROL ACYLTRANSFERASE**

measurements of, activity indicate that 1,3-diacylglycerol little utilized in triacylglycerol synthesis, 25

**DIACYLGLYCEROL OIL**

nutritional characteristics of, 129

**DIATOM**

determination of lipid class composition of, *Chaetoceros gracilis*, 1191

**DIET(S)**

control, contained ethyl esters prepared from safflower oil, 895  
could prevent many diseases, 317  
nonessential fatty acids and cholesterol both absorbed directly from the, 179

**DIETARY FAT**

controversy over effects of fatty acid composition of, on adaptive process of pancreatic enzymes, 1119  
fatty acid composition of many tissues related to levels of, 425

**DIETARY FATTY ACID**

effect of, in F1 hybrid New Zealand Black/White mice, 21

**DIFFERENTIATION**

*in vitro* method for studying proliferation and, of Atlantic salmon preadipocytes, 289

**DIGALACTOSYLDIACYLGLYCEROL**

is major glycolipid in floral organs of *Petunia hybrida*, 1107

**DIGALACTOSYLDIACYLGLYCEROL SYNTHASE**

recent studies of, show that enzyme which transfers galactose moiety from uridine 5'-diphosphate contributes mainly to digalactosyldiacylglycerol biosynthesis, 1107

**DIGESTIBILITY**

interactive effects of dietary palm oil concentration and water temperature on lipid, in rainbow trout, 1031

**DIISOPROPYL ETHER**

commonly used for lipase-catalyzed reactions, 1197

**DIMERS**

effects of temperature and addition of α-tocopherol evaluated in trilinolein model systems through quantification of, 233

**DIMETHYLDIOXIRANE**

functionalization of unactivated carbons in 3α,6- and 3α,24-dihydroxy-5β-cholane derivatives by, 281

**DIMETHYLDISULFIDE ADDUCTS**

preparation of, 1173

**DIMETHYLOXAZOLIDINES**

preparation of fatty acid derivatives of, 1173

**DINITROPHENYLHYDRAZONES**

tentative identification and quantification of triacylglycerol core aldehydes as, in autoxidized sunflower seed oil, 1179

**DIOL(S)**

isolation of unsaturated, after oxidation of conjugated linoleic acid with peroxygenase, 255

**2,2-DIPHENYL-5-(4-[(1E)-PYRIDIN-3-YL-METHYLIDENE]AMINO)PIPERAZIN-1-YL)PENTANENITRILE**

effect of Δ6-desaturase inhibitor, on polyunsaturated fatty acid metabolism in human cells, 469

**DISEASES**

diets could prevent many, 317

**DISIALOGANGLIOSIDE GD<sub>3</sub>**

buttermilk predominantly contains, and monosialoganglioside GM<sub>3</sub>, 855

**DOCOSAHEXAENOIC ACID**

and blood platelet redox status, 465  
average daily intake of, 391  
consumption of ethanol caused a significant decrease in level of, in rat kidney, 275  
deposited into synaptic membranes at high rate during perinatal period, 459

dietary conjugated linoleic acid and, modify skin properties in mice, 609

effect of starvation on lipid metabolism and stability of, in horse mackerel, 1263

high-, eggs in late pregnancy, 407  
increased, in neck muscle of pigs, 1221

increments in plasma concentrations of eicosapentaenoic acid and, given as capsules linearly correlate with intakes, 415

α-linolenic acid is precursor to, which is essential for normal growth and development in the infant, 1045

necessary for optimal brain and behavioral development, 171

phosphatidylserine is important component for observed protective effect of, 453

potential role for arachidonic acid and, in protection against some central nervous system injuries in preterm infants, 303

structure of, in phospholipid membranes, 445

sucrose-rich diet simultaneously and antagonistically decreased proportion of, of n-3 family, 733

supplementation with polyunsaturated fatty acids led up to a twofold increase in proportions of eicosapentaenoic acid, α-tocopherol, and, in plasma phospholipids and red blood cell total lipids, 1007

synthesis of, decreased in human cells, 469

synthesis of, in ceca, 39

tissue deposition of n-3 fatty acid pathway intermediates in the synthesis of, in rainbow trout, 925

undergoes less β-oxidation and carbon recycling, 477

whole-body lipids of n-6 polyunsaturated fatty acid-deficient rats had 66% higher, 187

**DOCOSAHEXAENOIC ACID SIGNAL TRANSDUCTION**

enhancement of G protein-coupled signaling by, phospholipids, 437

DOCOSAPENTAENOIC ACID  
amounts of, less affected in murine testis after 2 wk of fish oil consumption than other major testicular lipids, 73

average daily intake of, 391

effects of, on neuronal apoptosis, 453

DOCOSATETRAENOIC ACID  
and replacement of docosahexaenoic acid in n-3-deficient rats, 431

DOLICHOL  
polyisoprenoid alcohols of plant *Coluria geoides* isolated and analyzed to determine nature of polyproprenol and, mixture in various plant organs, 981

DRY SKIN  
symptom of, reported among children with Attention-Deficit/Hyperactivity Disorder as well as those with essential fatty acid deficiency, 1007

DUODENAL  
modeling, environment through solubilization of carotenoids from carrot juice and spinach in lipid phases, 947

DYNAMIC FLAVOR RELEASE  
initial, from oil/water emulsions containing different triacylglycerol phases, 1075

**E**

EARLY ARTHRITIS  
patients recruited from clinic for, 419

EARLY DEVELOPMENT  
especially during,  $\beta$ -oxidation and carbon recycling are quantitatively dominant pathways of linoleate and  $\alpha$ -linolenate metabolism, 477

EGGS  
high-docosahexaenoic acid, in late pregnancy, 407

EICOSANOID  
effects of fish oil on inflammatory, and cytokine production, 343

EICOSAPENTAENOIC ACID  
apoptosis induced by, depends on acyl coenzyme A-synthetase, 263  
average daily intake of, 391  
increments in plasma concentrations of, and docosahexaenoic acid given as capsules linearly correlate with intakes, 415  
levels of, maintained with consumption of red wine, 275  
triacylglycerol, and remnant-like particle-cholesterol, 353

ELECTROPHILES  
differences between bovine serum albumin and donor thiol nucleophiles in fetal bovine serum should be evaluated in biological studies involving arylating and alkylating, 973

ELECTROSPRAY IONIZATION MASS SPECTROMETRY  
divergent pattern of polyisoprenoid alcohols in tissues of *Coluria geoides* involving new, approach, 981

structural analysis of buttermilk gangliosides by nano, 855

tentative identification and quantification of triacylglycerol core aldehydes as dinitrophenylhydrazones in autoxidized sunflowerseed oil using reversed-phase high-performance liquid chromatography with, 1179

ELONGASE  
results suggest that final step in, activity in Atlantic salmon is also important point of regulatory control, 833

EMU OIL  
antagonism of croton oil inflammation by topical, in CD-1 mice, 603

EMULSIONS  
lipid molarity affects aroma partitioning and release from oil/water, 1075

ENDOTHELIAL CELLS  
measurement of activity in cultured pericytes and, isolated from bovine retina microcapillaries, 45

ENDOTHELIUM  
fatty acids and, -dependent vasodilation, 15  
fetal fatty acid profile closely resembles that of the vascular, and not the brain, 303

ENERGY DENSITY  
role of, on regulation of food intake and body weight, 109

ENTEROTOXIGENIC *Escherichia coli*  
strains of, bind bovine milk gangliosides in a ceramide-dependent process, 761

ENZYMIC REACTION  
mass spectrometry experiments verified that diricinolein was formed in, experiments, 1197

ENZYME INHIBITOR  
emulsified sulfoquinovosyl acylglycerol as, on mammalian deoxyribonucleic acid polymerases, 1065

ENZYME-LINKED IMMUNOSORBENT ASSAY  
levels of interleukin-1 $\alpha$  and tumor necrosis factor- $\alpha$  mouse cytokines from plasma and tissue samples measured by, 603

ENZYME-RESISTANT FRACTION  
of beans lowered serum cholesterol and increased sterol excretions and hepatic mRNA levels in rats, 919

EPILEPSY  
brain levels of N-acyl ethanolamine phospholipids in mice during pentylenetetrazol-induced, 387  
which of the n-3 polyunsaturated fatty acids should be called, 1113

ESSENTIAL FATTY ACID(S)  
combined effects of, deficiency and tumor necrosis factor- $\alpha$  on circulating lipoproteins in rats, 595  
decreased levels of polyunsaturated fatty acids in tissue lipids possibly caused by impaired desaturation of, precursors, 275  
deficiency, 431  
supplementation in children with inattention, hyperactivity, and other disruptive behaviors, 1007  
which n-3 fatty acids should be called, 889  
which of the n-3 polyunsaturated fatty acids should be called, 1113

ESTROGEN  
tamoxifen is potent antagonist of, 519

ETHANOL  
decreased content of long-chain polyunsaturated fatty acid, 275  
fatty acid ethyl esters used as markers of, intake, 269  
stearic acid stimulates fatty acid ethyl ester synthesis in human hepatoblastoma cells exposed to, 1051

ETHANOLYSIS  
regiospecific analysis by, of oil with immobilized *Candida antarctica* lipase, 1281

*Eudistoma bituminis*  
phospholipid fatty acids from Indian Ocean tunicates *Cystodytes violatinctus* and, 81

EVAPORATIVE LIGHT-SCATTERING DETECTOR  
used in analysis of phospholipids, 999

EXOCRINE PANCREATIC SECRETION  
comparison of effects of dietary sunflower oil and virgin olive oil on rat, *in vivo*, 1119

EXPRESSION  
cloning and, of an alkaline lipase gene, 191

EXTRACELLULAR POLYMERIC SUBSTANCES  
fatty acid profiles of lipid fractions in, of activated sludge flocs, 1093

**F**

FARNESOID X RECEPTOR  
recognized as therapeutic target, 1149

FARNESOL  
over 48-h time span, is unable to maintain RAS isoprenylation in continuing presence of lovastatin, 751

*Fasciola hepatica*  
fatty acids bound to, 12 kDa fatty acid-binding protein, a candidate vaccine, differ from fatty acids in extracts of adult flukes, 769

FAT  
dietary, and body weight control, 123  
magnitude of postprandial lipemia is altered by positional distribution of saturated fatty acids in the, ingested, 693

FATS AND OILS  
history of, in Canada, 299

FAT-SOLUBLE VITAMINS  
concern with use of plant sterols is possible negative effect on concentrations of, 367

FATTY ACID ACTIVATION  
fatty acid uptake and, of eicosapentaenoic acid important for induction of apoptosis, 263

**FATTY ACID ANALYSIS**  
lipids and, of canine prostate tissue, 665

**FATTY ACID BINDING PROTEINS**  
fatty acids bound to *Fasciola hepatica* 12Da, differ from fatty acids in extracts of adult flukes, 769

**FATTY ACID DESATURASES**  
activities of liver, in pregnant rats markedly affected by protein deficiency, 525

**FATTY ACID DIOXYGENASE**  
appropriate to group linoleate diol synthase of *Gaeumannomyces graminis* and *Magnaporthe grisea* to same subfamily of, 1275

**FATTY ACID ETHYL ESTER(S)**  
stearic acid stimulates, synthesis in human hepatoblastoma cells exposed to ethanol, 1051

**FATTY ACID HYDROPEROXIDE LYASE**  
kinetics of barley, modulated by salts and detergents, 1167

**FATTY ACID METHYL ESTER(S)**  
effect of methylation procedure on, in whole plasma and in major lipid fractions, 793

**FATTY ACID OXIDATION**  
dietary n-3 fatty acids, and leptin, 1023  
in various fish tissues, 1031

**FATTY ACID SPECIFICITY**  
similar to those of other plant species, 881

**FATTY ACID SYNTHASE**  
effect of oxidized fats on expression and activities of, 31

**FATTY ACID UPTAKE**  
and activation of eicosapentaenoic acid important for induction of apoptosis, 263

**n-3 FATTY ACID(S)**  
acute elevations of medium- and long-chain, have different impacts on endothelial-dependent vasodilation in humans, 15  
and cardiovascular disease risk factors, 359  
both sucrose-rich and starch-rich diets deficient in, 733  
concentrations of, in placenta, 561  
determination of, in cold water marine samples, 781  
dietary intake of fish vs. formulations leads to higher plasma concentrations of, 415  
dietary intakes and food sources of n-6 and, 391  
fat content and, composition of liver, plasma, and feces of broiler chicks analyzed, 505  
hyperphagia modifies, profiles of plasma phospholipids, plasma free fatty acids and adipose tissue triacylglycerols, 1127  
influence of temperature and high dietary linoleic acid content on esterification, elongation, and desaturation of polyunsaturated, in Atlantic salmon hepatocytes, 833  
intracellular pool sizes of different, can be easily manipulated through dietary means, 485  
low intake of, from docosahexaenoic acid alone could increase length of gestation and birth weight, 407  
measured in marine species most often eaten by the Bardi people of North Western Australia, 399  
natural abundance stable carbon isotope evidence for the routing and *de novo* synthesis of bone, and cholesterol, 179  
need for further research with, and vitamin E in children with behavioral disorders, 1007  
of *Fasciola hepatica* native 12-kDa protein, 769  
pharmacological modulation of, desaturation and of cholesterol biosynthesis in THP-1 cells, 841  
phospholipid, from Indian Ocean tunicates *Eudistoma bituminis* and *Cystodytes violatinctus*, 81  
phospholipid, of piezophilic bacteria from the deep sea, 885  
profiles of, of lipid fractions in extracellular polymeric substances of activated sludge flocs, 1093  
stearic acid stimulates, ethyl ester synthesis in human hepatoblastoma cells exposed to ethanol, 1051  
structure and composition of constituent, of *Androsace septentrionalis* determined by various chromatographic and spectroscopic methods, 1173  
transfer of, between leukocytes may play role in regulating inflammatory and immune responses, 633

which, should be called essential, 889

**n-3 FATTY ACID DEFICIENCY**  
changes in electroretinogram associated with dietary, in animals and non-human primates, 437  
docosapentaenoic acid accumulates in neuronal membranes during, 453  
docosapentaenoic acid does not completely replace docosahexaenoic acid in rats with, during early development, 431  
perinatal n-3, and blood pressure, 459

**n-6 FATTY ACID(S)**  
dietary intakes and food sources of n-3 and, 391  
extent of liver microsomal  $\Delta_6$ - and  $\Delta_5$ -desaturations of labeled linoleic and eicosatrienoic, 733

**FATTY LIVER**  
hypolipidemic effects of pitavastatin and its fat-eliminating capacity on spontaneously developed, in aromatase-deficient mice, 519

**FATTY LIVER SHIONOGI MICE**  
novel type hypertriglyceridemia observed in, 687

**FEED EFFICIENCY**  
in mice calculated from food consumption and weight gain during 6-wk experimental period, 895

**FENOFLIBRATE**  
peroxisome proliferator-activated receptor  $\alpha$  agonist, 497

**FETAL BOVINE SERUM**  
thermochemicalysis of  $\gamma$ -tocopherol quinone adducts with, 973

**FETUS**  
development of intestinal alkaline sphingomyelinase in rat, and newborn rat, 545

**FIBROBLASTS**  
desaturation inhibited in cultured human skin, 469

**FIMBRIAL ADHESIONS**  
differences in, could be due to different composition of ganglioside ceramide, 761

**FISH**  
dietary intake of, vs. formulations leads to higher plasma concentrations of n-3 fatty acids, 415  
docosahexaenoic acid synthesis in ceca of, 39  
tissue deposition of n-3 fatty acid pathway intermediates in the synthesis of docosahexaenoic acid in, (rainbow trout), 925

**FISH INTAKE**  
comparison of, and plasma phospholipid concentration of n-3 fatty acids among Québécois, Cree, and Inuit, 359

**FISH OIL**  
administration of, -containing soy milk significantly increased eicosapentaenoic acid levels of red blood cells, 353  
biomarker of n-3 compliance in patients taking, for rheumatoid arthritis, 419  
effect of dietary, on inflammatory gene expression, 343  
measure effect of orlistat on lymphatic fat transport after administration of safflower oil, and a randomized oil, 1039  
polyunsaturated fatty acid desaturation in salmon fed linseed oil, rapeseed oil, and, 723  
triacylglycerol in n-6 polyunsaturated fatty acid-rich adult mouse testis decreased significantly after consumption of, for 2 wk, 73

**FISHING PATTERNS**  
fat, and health among the Bardi people of North Western Australia, 399

**FLAXSEED**  
comparative effects of, and sesame seed on vitamin E and cholesterol levels in rats, 1249

**FLORAL ORGANS**  
digalactosyldiacylglycerol is major glycolipid in, of *Petunia hybrida*, 1107

**FLUORINATED FATTY ACIDS**  
study of activity of, as substrates and inhibitors of desaturases involved in biosynthesis of sex pheromonal blend of *Spodoptera littoralis*, 865

**FLUORO-**  
presence of, chloro-, allyl, or methyl-allyl group offers new direction for study of physiological and pharmaceutical properties, 1293

**FOOD INTAKES**  
and food sources of n-6 and n-3 polyunsaturated fatty acids, 391

**FREE FATTY ACIDS**  
hyperphagia modifies fatty acid profiles of plasma phospholipids, plasma, and adipose tissue triacylglycerols, 1127

**C<sub>18</sub> FURAN FATTY ESTER**  
synthesis of novel tri-substituted and tetra-substituted, 1293

**G**

**GALACTOLIPID**  
digalactosyldiacylglycerol is major, in floral organs of *Petunia hybrida*, 1107

**GANGLIOSIDES**  
enterotoxicigenic *Escherichia coli* strains bind bovine milk, in a ceramide-dependent process, 761  
transacylation of buttermilk, 855

**GARLIC**  
protective action on human low density lipoprotein against oxidation and glycation by four organosulfur compounds derived from, 219

**GAS CHROMATOGRAPHY-MASS SPECTROMETRY**  
analyses of cyanolipid fraction from guaraná oil by, 773  
analysis of fatty acid methyl esters by, 885  
each regioisomer determined by, 1287  
structure and composition of constituent fatty acids of *Androsace septentrionalis* determined by various methods including, 1173

**GAS CHROMATOGRAPHY-COMBUSTION-ISOTOPE RATIO MASS SPECTROMETRY**  
use of, to assess relative importance of routing and synthesis *de novo* for each bone lipid, 179

**GAS-LIQUID CHROMATOGRAPHY**  
conjugated linoleic acid isomers usually quantified by, analysis as their methyl esters, 793

**GASTRIC MUCOSA**  
phospholipid hydroperoxides detoxified in rat, 641

**GENE EXPRESSION**  
investigation of effects of arachidonic and oleic acids on function and pleiotropic, of Raji cells, 1157

**GENETICS**  
of obesity are more complicated than initially thought, 97

**GERANYLGERANIOL**  
over 48-h time span, is able to maintain Rap1 isoprenylation in continuing presence of lovastatin, 751

**GLUCOSE, <sup>13</sup>C**  
effects of specific conjugated linoleic acid isomers on incorporation of into individual fatty acids of adipocyte phospholipids and triacylglycerols, 1133

**GLUCOSE-6-PHOSPHATE DEHYDROGENASE**  
effect of, in liver of rats treated with vitamin E or selenium, 31

**GLUTATHIONE**  
electrophile tocopherol quinones from phenolic antioxidants  $\gamma$ -tocopherol and  $\delta$ -tocopherol form Michael adducts with thiol nucleophile, 973

**GLUTATHIONE PEROXIDASE**  
detoxification of phospholipid hydroperoxides by, in rat gastric mucosa, 641

**GLYCATION**  
protective action on human low density lipoprotein against oxidation and by four organosulfur compounds derived from garlic, 219

**GLYCEMIC INDEX**  
dietary, and the regulation of body weight, 117

**GLYCEROGLYCOLIPID**  
new, and ceramide from *Premna microphylla*, 1299

**GLYCEROL-3-PHOSPHATE DEHYDROGENASE**  
biochemical marker of adipocyte differentiation, 289

**GLYCEROPHOSPHOCHOLINE PHOSPHODIESTERASE**  
characterization of, activity and phosphatidylcholine biosynthesis in cultured retinal microcapillary pericytes, 45

**GLYCOLIPIDS**  
measurement of fatty acids of, in activated sludge flocs and extracellular polymeric substances, 1093

**GLYCOSPHINGOLIPIDS**  
buttermilk is potential source of, for dietary applications, 855

**GLYCOSYLCERAMIDE**  
with novel ceramide and three novel ceramides from basidiomycete

**Cortinarius umidicola**, 669

**G PROTEIN**  
enhancement of, -coupled signaling by docosahexaenoic acid phospholipids, 437

**GRINDING**  
effect of ultrasonication and, on determination of lipid class content of microalgae harvested on filters, 1191

**GROWTH**  
effects of high- $\gamma$ -linolenic acid canola oil compared with borage oil on reproduction, and brain and behavioral development in mice, 171  
effects of n-6 polyunsaturated fatty acid deficiency on, in rats, 187

**GUANIDINE HYDROCHLORIDE**  
simple method for isolating apolipoprotein A-I in large quantities using, 209

**GUARANÁ**  
plant native to Amazon jungle used as stimulant to relieve fatigue or exhaustion from hot weather, 773

**H**

**HAIRY ROOT CULTURE**  
may be useful model in future studies, 981

**HAMSTER**  
direct comparison of conjugated linoleic acid isomer effects in white and brown adipocytes in the Djungarian, 1133  
effect of policosanol and phytosterols on lipid levels and cholesterol biosynthesis in, 165  
effect of structure and form on ability of plant sterols to inhibit cholesterol absorption in the, 713

**T HELPER 1 RESPONSE**  
production of antigen-presenting cell-derived interleukin-12 can direct, *via* induction of interferon- $\gamma$ , 323

**T HELPER 2 RESPONSE**  
research necessary to clarify effects of n-6 polyunsaturated fatty acids on antibody production in relation to, 323

**HEMOPROTEIN**  
peroxygenase is plant enzyme functionally related to iron-containing, 255

**HEMORRHAGIC STROKE**  
comparative health effects of margarines fortified with plant sterols and stanols on a rat model for, 1237

**HEPATOCYTE(S)**  
fatty acyl desaturation/elongation in, significantly increased in diets containing vegetable oils, 723  
influence of temperature and high dietary linoleic acid content on esterification, elongation, and desaturation of polyunsaturated fatty acids in, of Atlantic salmon, 833

**CIS,CIS-9,12-HEXADECADIENOIC ACID**  
in *Androsace septentrionalis* (Primulaceae) seed oil, 1173

**CIS-11-HEXADECENOIC ACID**  
in *Androsace septentrionalis* (Primulaceae) seed oil, 1173

**HEXANE**  
commonly used for lipase-catalyzed reactions, 1197

**HIGH DENSITY LIPOPROTEIN**  
study of metabolism of, constituents in humans, 209

**HIGH DENSITY LIPOPROTEIN CHOLESTEROL**  
effect of conjugated linoleic acid supplementation on, 805  
increased consumption of fish as source of n-3 fatty acids beneficially associated with levels of, cholesterol and triacylglycerols, 359

**HIGH-FAT DIET**  
supplementation of, with n-3 polyunsaturated fatty acids enhanced *in vivo* insulin sensitivity, 1023

**HIGH-PERFORMANCE LIQUID CHROMATOGRAPHY**  
light-scattering detection of phospholipids resolved by, 999  
synthesized monohydroperoxides analyzed by normal-phase and reversed-phase, 1287

**HIGH-PERFORMANCE SIZE-EXCLUSION CHROMATOGRAPHY**  
fractions of polar compounds analyzed by, 233

**HISTONES**  
arylation may be new mechanism for modifications of, that affect

chromatin dynamics leading to mutagenesis and carcinogenesis, 973

**HISTORY**  
of fats and oils in Canada, 299

**HOPANOID BIOSYNTHESIS INHIBITION**  
role of conjugated methyl sulfide and phenyl sulfide derivatives of oxidosqualene in, 201

**HORMONE-SENSITIVE LIPASE**  
sterol-mediated regulation of, and/or neutral cholesterol esterase occurs in macrophages and adipocytes, 743

**HORSE MACKEREL**  
effect of starvation on lipid metabolism and stability of docosahexaenoic acid in, 1263

**HUMAN**  
fatty acids and endothelium-dependent vasodilation in the, 15  
positional distribution of saturated fatty acids in dietary triacylglycerol affects absorption and metabolism *in vitro* but effects on, adults is unsubstantiated, 693

**HUMAN ERYTHROEUKEMIA CELLS**  
lack of stereospecificity in lysophosphatidic acid enantiomer-induced calcium mobilization in, 1057

**HUMAN PLASMA**  
determination of *cis*9-*trans*11-conjugated linoleic acid in major, lipid classes using a combination of methylating methodologies, 793

**7 $\alpha$ -HYDROLASE**  
baboon liver biopsies assayed for, 1213

**HYDROPEROXIDE**  
positional isomers of 1-palmitoyl-2-arachidonyl-*sn*-glycero-3-phosphocholine, 65

**25-HYDROXYCHOLESTEROL**  
downregulates neutral cholesterol esterase activity by reducing amount of hormone-sensitive lipase protein in adipocytes, 743

**26-HYDROXYCHOLESTEROL**  
prevalent trivial name is 27-hydroxycholesterol but traditional name is, 1213

**27-HYDROXYCHOLESTEROL**  
prevalent trivial name is, but traditional name is 26-hydroxycholesterol, 1213

**27-HYDROXYCHOLESTEROL-7 $\alpha$ -HYDROXYLASE**  
baboon liver biopsies assayed for, 1213

**2-HYDROXYESTRADIOL**  
comparison of *ex vivo* inhibitory effect between, and its 17-sulfate on rat hepatic microsomal lipid peroxidation, 847

**2-HYDROXYESTRADIOL 17-SULFATE**  
as an antioxidant, 847

**HYDROXY FATTY ACID**  
two distinct pathways for the formation of, from linoleic acid by lactic acid bacteria, 1269

**3-HYDROXY-3-METHYLGLUTARYL-COENZYME A REDUCTASE**  
clinical benefits of cholesterol reduction by, inhibitors established in large-scale prevention studies for coronary heart disease, 519

**HYDROXYLAMINE**  
inhibited lipid peroxidation more effectively than corresponding parent nitroxyl radicals, 225

**8-HYDROXYLINOLEIC ACID**  
mycelia of two strains of *Magnaporthe grisea* incubated with linoleic acid and two main metabolites were identified as, and 7,8-dihydroxy-linoleic acid, 1275

**(2S,3S,4R,11E)-2-[(2R)-2-HYDROXYTETRACOSANOYLAMINO]-11-OCTADECENE-1,3,4-TRIOL**  
is new compound isolated from ethanolic extract of leaves of *Premna microphylla*, 1299

**HYPERCHOLESTEROLEMIA**  
farnesoid X receptor has been recognized as putative pharmaceutical treatment target against, 1149

phytosterols have been shown to decrease total cholesterol and low density lipoprotein cholesterol in children with familial, 367

**HYPERTENSION**  
different areas in the deep sea, 885

major risk factor for cardiovascular and cerebrovascular disease, 459

**IATROSCAN**  
used to identify and quantify lipid classes using standard calibration curves obtained for each lipid class, 1191

**IMMOBILIZED LIPASE**  
four different varieties of, were tested, 1197

**IMMUNE FUNCTION**  
eicosanoid derivatives of arachidonic acid and eicosapentaenoic acid are signaling molecules that regulate, 1221

**IMMUNE SYSTEM**  
polyunsaturated fatty acids and the, 323

**IMMUNIZATION**  
procedures for, preferentially decreased linoleic acid and  $\alpha$ -linolenic acid content of neck muscle antigen and adjuvant injection sites, 1221

**IMMUNOCYTOCHEMISTRY**  
of differentiated salmon adipocytes in primary culture, 289

**IN VIVO KINETICS STUDY**  
of apolipoprotein A-I, 209

**IN VIVO LYMPHATIC ABSORPTION**  
rate of monounsaturated fatty acids varied following administration of liposomes to rats, 551

**INDUCTION PERIOD**  
amounts of primary oxidation compounds accumulated during, decreased as temperature increased, 233

**INFANT NUTRITION**  
and docosapentaenoic acid during early development, 431

**INFANTS**  
women who consumed high-docosahexaenoic acid eggs during last trimester of pregnancy would have, with longer gestation and higher birth weight, 407

**INFLAMMATION**  
and polyunsaturated fatty acid metabolism in pigs, 1221  
benefits of n-3 polyunsaturated fatty acids in rheumatoid arthritis and other diseases with, 419  
effect of vitamin E supplementation on chronic, 813  
n-3 polyunsaturated fatty acids and, 343  
sardine oil-rich diet increases iron absorption but does not compensate the hypoferremia associated with, 821

**INFLAMMATORY CYTOKINES**  
*ex vivo* secretion of, 377

**INSECT SEX PHEROMONE BIOSYNTHESIS**  
demonstration that replacements of hydrogen atoms by fluorine mimic, potentiate, or inhibit action of natural products in, 865

**INSULIN**  
hepatic  $\Delta$ 9-,  $\Delta$ 6-, and  $\Delta$ 5-desaturations in non-, -dependent diabetes mellitus in Stillman-Salgado rats, 827

**INSULIN RESISTANCE**  
desaturase activities in rat model of, induced by a sucrose-rich diet, 733

**INSULIN SENSITIVITY**  
supplementation of high-fat diet with n-3 polyunsaturated fatty acids enhanced *in vivo*, 1023

**INTERCELLULAR LIPID TRANSFER**  
physiological role of, on modulation of acceptor cell function *in vivo* still to be determined, 633

**INTERLEUKINS**  
effect of conjugated linoleic acid on secretion of, 377

**INTERVENTION STUDY**  
using n-3 long-chain polyunsaturated fatty acid for secondary prevention of coronary heart disease, 353

**INTESTINAL ABSORPTION**  
responsible for disappearance of ingested plasmalogen from alimentary tract, 1227

## INTESTINE

alkaline sphingomyelinase present in, of many species, 545  
dietary supplementation with phosphatidylcholine reported to decrease cholesterol absorption in human, 705

## INTRACELLULAR CHOLESTEROL

specific role of, concentration in maintaining cell homeostasis, 743

## INTRADUODENAL INFUSION

analysis of digestion products in lumen and metabolic products in mucosa after, of diacylglycerol, 25

## INTRAMYOCYTOCELLULAR LIPID

metabolism of, using proton magnetic resonance spectroscopy, 9

## INTRAVENTRICULAR HEMORRHAGE

complications of preterm, very-low-birth-weight babies include, 303

## INUIT

comparison of fish intake and plasma phospholipid concentrations of n-3 fatty acids among Québécois, Cree, and, 359

## IRON ABSORPTION

sardine oil-rich diet increases, but does not compensate the hypoferremia associated with inflammation, 821

## ISOMER

distribution of hydroperoxide positional, generated by oxidation in liposomes, 65

## ISOPRENOID FATTY ACIDS

phytanic acid is an, usually found in marine organisms but identified for first time in tunicates, 81

## ISOPRENOIDS

among most numerous and diverse groups of natural products, 981

## ISOPRENYLATION

isoprenoid alcohols restore protein, in time-dependent manner independent of protein synthesis, 751

F<sub>2</sub>-ISOPROSTANES

effect of vitamin E supplementation on, 813

## ISOTOPE RATIO MASS SPECTROMETRY

<sup>13</sup>C enrichments of fatty acid methyl esters analyzed by gas chromatography-combustion-, 1133

## J

## JELLYFISH

occurrence of high levels of tetracosahexaenoic acid in the jellyfish *Aurelia* sp., 1207

## K

## RAF-1 KINASE

membrane translocation is important step in activation of, 453

## KINETICS

analysis of, of selectivity of acylcarnitine synthesis in rat mitochondria, 485

of barley fatty acid hydroperoxide lyase modulated by salts and detergents, 1167

## L

## LACTATION

enterotoxigenic *Escherichia coli* strains assayed to determine whether they are able to bind gangliosides isolated from several stages of bovine, 761

investigation as to whether feeding sows high  $\alpha$ -linolenic acid prior to parturition and during, would increase n-3 polyunsaturated fatty acid composition of the suckling piglet, 1045

## LACTIC ACID BACTERIA

two distinct pathways for the formation of hydroxy fatty acid from linoleic acid by, 1269

## LANOSTEROL BIOSYNTHESIS INHIBITION

role of conjugated methyl sulfide and phenyl sulfide derivatives of oxidosqualene in, 201

## (ω-1)-LAURATE HYDROXYLASE

at end of feeding period, measured in liver subcellular fractions, 957

## ω-LAURATE HYDROXYLASE

at end of feeding period, measured in liver subcellular fractions, 957

## LEAN MASS

effect of conjugated linoleic acid on body, 377

## LEPTIN

administration of, in animals reported to favor lipolysis and inhibit lipogenesis, 497

dietary influence on, and obese gene expression, 513

effect of conjugated linoleic acid supplementation on serum, 805

hypotriglyceridemic effect of dietary n-3 fatty acids associated with increased  $\beta$ -oxidation and reduced, expression, 1023

regulatory protein associated with adipocyte differentiation, 289

## LEPTIN RECEPTOR

increased fatty acid oxidation after n-3 polyunsaturated fatty acid supplementation of high-fat diet accompanied by increased hepatic, mRNA, 1023

## LIFE SPAN

mechanism by which plant stanols reduce, of stroke-prone spontaneously hypertensive rats may differ from that of plant sterols, 1237

## LINOLEATE

carbon from  $\alpha$ -linolenate and, recycled into newly synthesized lipids, 477

synthesis of fatty acid ethyl esters may be linked to desaturation and elongation, to arachidonate, 269

## LINOLEIC ACID

average daily intake of, 391

$\Delta 6$ -desaturation is rate-limiting step in conversion of, to arachidonic acid, 469

high-, diets used to exacerbate n-3 polyunsaturated fatty acid deficiency, 187

levels of, unchanged in rat kidney with consumption of water, ethanol, red wine, or alcohol-free red wine, 275

procedures for immunization preferentially decreased, and  $\alpha$ -linolenic acid content of neck muscle antigen and adjuvant injection sites, 1221

production of specific structured triacylglycerol by batch interesterification of caprylic acid and, 903

two distinct pathways for the formation of hydroxy fatty acid from, by lactic acid bacteria, 1269

## LINOLENIC ACID

absorbed equally as well as triacylglycerol or free fatty acid by fish, 39

levels of, unchanged in rat kidney with consumption of water, ethanol, red wine, or alcohol-free red wine, 275

 $\alpha$ -LINOLENIC ACID

average daily intake of, 391

carbon from, and linoleate recycled into newly synthesized lipids, 477

$\Delta 6$ -desaturation is initial reaction in conversion of, to eicosapentaenoic acid, 469

dietary, increases n-3 polyunsaturated fatty acid content of sow's milk and tissues of suckling piglet, 1045

docosahexaenoic acid is long-chain metabolite of the essential fatty acid, 459

evaluation of utilization of, in growing rats consuming diet deficient in n-6 polyunsaturated fatty acids, 187

higher levels of, produced lower plasma cholesterol concentrations, 1249

procedures for immunization preferentially decreased linoleic acid and, content of neck muscle antigen and adjuvant injection sites, 1221

 $\gamma$ -LINOLENIC ACID

high, canola oil, borage oil, and mouse development, 171

synthesis and isolation of *trans*-7, *cis*-9 octadecadienoic acid and other conjugated linoleic acid isomers by base conjugation of partially hydrogenated, 579

## LINSEED OIL

polyunsaturated fatty acid desaturation in salmon fed rapeseed oil, fish oil, and, 723

## LIPASE

catalyzed interesterification used to prepare structured triglycerides from coconut oil triglycerides by partially replacing some atherogenic saturated fatty acids with stearic acid, 913

## LIPID(S)

and fatty acid analysis of canine prostate tissue, 665

extraction of, from cold-water marine samples, 781

oils used in study contained either n-3 or n-9 polyunsaturated fatty acid, 603

**LIPID CLASS(ES)**

- decline in marine organisms of certain, and formation of artifacts during storage is constant issue in lipid studies, 1191
- lymph lipids separated into, and analyzed by gas chromatography-combustion-isotope ratio mass spectrometry, 903
- reduction in apparent digestibility of saturates due in part to increasing resistance of dietary triacylglycerol to digestion based on, composition of trout feces, 1031

**LIPIDEMIC EFFECTS**

- triglycerides containing stearic acid synthesized from coconut oil exhibit, in rats similar to those of cocoa butter, 913

**LIPID EMULSION**

- has appealing properties as drug carrier, 1065

**LIPID EPOXIDE**

- investigation of oat seeds, *Avena sativa*, for ability to replace acid catalysts in production of, 255

**LIPID FRACTIONS**

- analysis of fatty acid contents in individual, from human placental tissue, 561

**LIPID HYDROPEROXIDATION**

- description of, 1287

**LIPID METABOLISM**

- intramyoecular, using proton magnetic resonance spectroscopy, 9

**LIPID PEROXIDATION**

- antioxidant action of a lipophilic nitroxyl radical against, under hypoxic conditions, 225
- comparison of *ex vivo* inhibitory effect between 2-hydroxyestradiol and its 17-sulfate on rat hepatic microsomal, 847
- phagocyte-induced, shown to be lower during Structolipid® incubation than during incubation with Intralipid® *in vitro*, 15

**LIPID STRUCTURE**

- molarity of lipid phase proposed to influence volatile behavior in emulsions apart from chemical, 1075

**LIPID SYNTHESIS**

- and acyl-coenzyme A synthetase in developing rice seeds, 881

**LIPOLYSIS**

- 3T3-L1 adipocytes are major site of, by hormone-sensitive lipase, 743

**LIPOPOLYSACCHARIDES**

- fatty acids from, of activated sludges and extracted extracellular polymeric substances determined on samples from two wastewater treatment plants, 1093

**LIPOPROTEIN LIPASE**

- tumor necrosis factor- $\alpha$  decreased adipose tissue, activity in both control and essential fatty acid deficient rats, 595

**LIPOPROTEINS**

- combined effects of essential fatty acid deficiency and tumor necrosis factor- $\alpha$  on circulating, in rats, 595

**LIPOSOME(S)**

- distributions of hydroperoxide positional isomers generated by oxidation in, 65
- $\alpha$ -tocopherol added to fish oil and incorporated into, membrane, 551

**LIVER**

- comparison of metabolism of two main isomers of conjugated linoleic acid using, slice model, 157
- cyclic fatty acid monomer feeding caused accumulation of lipids in the, of female peroxisome proliferator-activated receptor  $\alpha$ -null mice, 957
- fatty acid ethyl esters detectable in blood, and adipose tissue after ethanol ingestion, 269
- hypotriglyceridemic effect of dietary n-3 polyunsaturated fatty acids is associated with stimulation of fatty acid oxidation in the, and to smaller extent in skeletal muscle, 1023
- of Atlantic salmon perfused and parenchymal cells prepared using two-step collagenase perfusion procedure, 833
- oxidized fats contain substances that suppress gene expression of lipogenic enzymes in the, 31

**LIVER CHOLESTEROL**

- total, pools lower in hamsters fed soybean sterols, 713

**LONG-CHAIN FATTY ACID**

- uptake of, by skeletal muscle is impaired in homozygous, but not heterozygous heart-type-fatty acid-binding protein null mice, 491

**LONGITUDINAL STUDY**

- of normal pregnant women with three cutoff points during pregnancy and at delivery, 1

**LOW DENSITY LIPOPROTEIN CHOLESTEROL**

- phytosterols have been shown to decrease total cholesterol and, 367

**LOW DOSE**

- possible that, of n-3 long-chain polyunsaturated fatty acid may significantly reduce serum levels of triacylglycerols and remnant-like particle-cholesterol, 353

**LOW-FAT**

- new food formulations being evaluated using phytosterols incorporated into, and reduced-fat food items, 367

**LOW-PROTEIN DIET**

- desaturase enzymes in monkeys and, 525

**LUNG SURFACTANT**

- major survival challenge of premature birth is production of, 425

**LYMPHATIC ABSORPTION**

- effect of orlistat on, in rats, 1039
- study indicates that, pattern of exogenous linoleic acid following administration of specific structured triacylglycerols tends to be different from that of long-chain triacylglycerol, 903

**LYMPHOCYTE(S)**

- feeding mice fish oil-rich diet significantly decreased level of interleukin-1 $\alpha$  mRNA in lipopolysaccharide-stimulated spleen, 343
- transfer of arachidonic acid from, to macrophages, 633

**B-LYMPHOCYTE**

- specific effects of fatty acids on, function, 1157

**LYMPHOMA CELL LINE**

- investigation of, for sensitivity to fatty acid based on cell proliferation and cell death, 263

**LYSOPHOSPHATIDIC ACID**

- lack of stereospecificity in, enantiomer-induced calcium mobilization in human erythroleukemia cells, 1057

**LYSOPHOSPHATIDYLCHOLINE**

- accumulation of lutein in liver enhanced by, 705

**M**

**MACROPHAGE(S)**

- fish oil lowered lipopolysaccharide-stimulated tumor necrosis factor- $\alpha$  mRNA levels in murine peritoneal, 343
- transfer of arachidonic acid from lymphocytes to, 633

**MAGNESIUM<sup>2+</sup>**

- known to prevent action and binding of polymyxin B to bacterial membrane, 965

**MALABSORPTION**

- comparison in normal rats and rats with fat, 1039

**MAMMALIAN TESTIS**

- very long chain polyunsaturated fatty acids of, 73

**MARINE**

- fatty acid determination in cold-water, samples, 781

**MARINE ENVIRONMENT**

- origin of *cis*-vaccenic acid photodegradation products in, 1085
- potential sources of several acyclic isoprenoid compounds in the, 241

**MASS SPECTROMETRY**

- tentative identification and quantification of triacylglycerol core aldehydes as dinitrophenylhydrazones in autoxidized sunflowerseed oil using reversed-phase high-performance liquid chromatography with electrospray ionization, 1179
- used in analysis of phosphatidylserine molecular species, 453

**MECHANISTIC ASPECTS**

- characterization of oxidation products and, 241

**MEDITERRANEAN DIET**

- virgin olive oil is typical component of, and good source of monounsaturated fatty acid, 1119

**MEMBRANE FATTY ACID**

- profile of, profoundly altered by type of dietary fat given, 1119

**METABOLIC CLEARANCE**

- difference in persistence of inhibitory effect between 2-hydroxyestradiol

and 2-hydroxyestradiol 17-sulfate may be related to their, from the blood, 847

**METABOLISM**  
detary conjugated linoleic acid affects lipid, in broiler chicks, 505  
hepatic, of conjugated linoleic acid in rats, 157  
potential sparing effect of  $\alpha$ -linolenic acid on requirements for and, of linoleic acid, 187

**METHYLATION**  
effect of, procedure on fatty acid methyl esters in whole plasma and in major lipid fractions, 793

**2-METHYLPROPENYL**  
synthesis of novel tri- and tetrasubstituted C<sub>18</sub> furan fatty esters, 1293

**METHYL SULFIDES**  
conjugated, and phenyl sulfide derivatives of oxidosqualene as inhibitors of oxidosqualene and squalene-hopene cyclases, 201

**MICELLES**  
hydrolysis of phosphatidylcholine to lysophosphatidylcholine plays important role in intestinal uptake of carotenoids solubilized in mixed, 705

**MICHAEL ADDUCTS**  
electrophilic tocopherol quinones from phenolic antioxidants  $\gamma$ -tocopherol and  $\delta$ -tocopherol form, with thiol nucleophile glutathione, 973

**MICROBIAL TRANSFORMATION**  
little known about, of linoleic acid, 1269

**MICROSATELLITE ANALYSIS**  
performed to define chromosome responsible for pre- $\alpha$ -lipoprotein phenotype in fatty liver Shionogi mice, 687

**MICROSPORE-DERIVED**  
examination of properties of microsomal acyl-coenzyme A:lysophosphatidylcholine acyltransferase from, cell suspension cultures of *Brassica napus*, 651

**MILK**  
*trans*-octadecenoate isomers in, 1143  
phospholipids in, fat by phosphorus-31 nuclear magnetic resonance, 585

**MILK FAT**  
greater polyunsaturated fatty acid content in, from pastured cows of the Alps compared with indoor cows, 657

**MITOCHONDRIA**  
kinetic analysis of selectivity of acylcarnitine synthesis in rat, 485

**MODELING**  
mathematical, to predict flavor release from oil/water emulsions recently presented and experimentally validated, 1075

**MODERATELY PIEZOPHILIC BACTERIA**  
purpose of study was to characterize phospholipid fatty acid profiles of piezo-tolerant, piezophilic, hyperpiezophilic, and, isolated from different areas in the deep sea, 885

**MOLARITY**  
lipid, affects aroma partitioning and release from oil/water emulsions, 1075

**MOLECULAR DYNAMICS SIMULATIONS**  
comparison of measured order parameters with results from, 445

**MONKEYS**  
desaturase enzymes in, and low-protein diet, 525

**MONOGALACTOSYLDIACYLGLYCEROL**  
digalactosyldiacylglycerol more abundant than, in pistils and petals of *Petunia hybrida*, 1107

**MONOGALACTOSYLDIACYLGLYCEROL SYNTHASE**  
identification of isoform of, expressed specifically in floral organs, 1107

**MONOUNSATURATED FAT**  
diet rich in, tended to increase circulating leptin levels, 513

**MONOUNSATURATED FATTY ACIDS**  
Jersey-sired cattle had significantly higher concentrations of total, than Limousin-sired cattle, 539

**MONOVALENT CATION**  
kinetics of reaction highly modulated, depending on concentration of, and/or detergent in reaction mixture, 1167

**MOUSE**  
*N*-acylethanolamine phospholipids in, brain, 387  
effect of conjugated fatty acid on feed intake, body composition, and liver fatty acid in the, 895

high- $\gamma$ -linolenic acid canola oil, borage oil, and development of the, 171  
impact of dietary fatty acid and energy restriction on plasma leptin and obese gene expression in the, 513

long-chain fatty acid uptake by skeletal muscle is impaired in homozygous heart-type-fatty acid-binding protein null, 491

peroxisome proliferator-activated receptor  $\alpha$  not exclusive mediator of effects of dietary cyclic fatty acids in the, 957

**MUSHROOM**  
chemical constituents of, *Cortinarius tenuipes*, 81

**N**

**NERVOUS SYSTEM**  
functional deficits in, associated with n-3 fatty acid deficiency, 431

**NEURAL GENE EXPRESSION**  
regulator of, 303

**NEURO 2A CELLS**  
docosapentaenoic acid enrichment protected against cell death induced by staurosporine treatment in, 453

**NEUTRAL CHOLESTEROL ESTERASE**  
sterol-mediated regulation of hormone-sensitive lipase/, occurs in macrophages and adipocytes, 743

**NEUTRAL LIPIDS**  
fatty acids from, of activated sludges and extracted extracellular polymeric substances determined on samples from two wastewater treatment plants, 1093

**NEUTRAL SPHINGOMYELINASE**  
liver plasma membrane, 53

**NEWBORN**  
development of intestinal alkaline sphingomyelinase in rat fetus and, rat, 545

**NICARDIPINE**  
and curcumin decreased  $\Delta$ 5-desaturation with limited effect on cholesterol synthesis, 841

**NITRIC OXIDE**  
methacholine chloride mediates vasodilation by increased production of, 15

**NITROXYL RADICAL**  
antioxidant action of a lipophilic, 225

**NONAPEPTIDE**  
as effective as whole antibiotic, 965

**NON-INSULIN-DEPENDENT DIABETES MELLITUS**  
hepatic  $\Delta$ 9-,  $\Delta$ 6-, and  $\Delta$ 5-desaturations in, eSS rats, 827

**NONPOLAR LIPIDS**  
in *Chenopodium album* from diverse soils, 567

**NORMAL-PHASE SILICA COLUMN**  
improved method for analysis of phospholipids using, 999

**NUCLEAR MAGNETIC RESONANCE**  
analyses by, indicated that type I cyanolipids are present in oil from *Paulinella cupana*, 773

structural studies, 445

studies with, used to determine purity, 1197

**NUCLEAR RECEPTOR**  
bile acid receptor is member of, hormone superfamily, 1149

**NUCLEOPHILES**  
cytotoxicity of electrophilic quinones produced from benzene, estrogens, and polycyclic aromatic hydrocarbons attributed to the arylation of cellular, 973

**NUTRITIONAL INDEX**  
of n-3 polyunsaturated fatty acid intake, 419

**NUTRITIONAL PROGRAMMING**  
of bile acid pathways, 1213

**O**

**OBESE GENE EXPRESSION**  
dietary influence on leptin and, 513

**OBESITY**

animal model of developed, shows that long-term consumption of ordinary high-energy diet is consistent with changes associated with increased risk of various diseases in humans, 1127  
 calcium, dairy, and, 139  
 genetics of, are more complicated than initially thought, 97  
 overview of, 93  
 sedentary lifestyle and risk of, and type 2 diabetes, 103  
 treatment and prevention of, 147  
 use of diacylglycerol oil in prevention of, 129

**CIS,CIS,CIS-OCTADECA-3,9,12-TRIENOIC (Z,Z,Z-OCTADECA-3,9,12-TRIENOIC) ACID**

occurrence of a novel, in *Chrysanthemum (Tanacetum) zawadskii* herb (Compositae) seed oil, 573  
 1-O-(9Z,12Z,15Z-OCTADECatrienoyl)-3-O-[ $\beta$ -D-GALACTOPYRANOSYL-(1 $\rightarrow$ 6)-O- $\beta$ -D-GALACTOPYRANOSYL]GLYCEROL  
 is new compound isolated from ethanolic extract of leaves of *Premna microphylla*, L1299

**CIS-OCTADECENOATE**

distribution profile of, isomers in milk shows significant differences when compared to that in the dams' diet, 1143  
**TRANS-OCTADECENOATE**  
 distribution profile of, isomers in milk is identical to that in the dams' diet, 1143

**OILS**

within genus *Paullinia*, several species have been studied for lipid content of their seed, 773

**OILSEED RAPE**

examination of properties of microsomal acyl-coenzyme A:lysophosphatidylecholine acyltransferase from microspore-derived cell suspension cultures of, *Brassica napus*, 651

**OLEIC ACID**

genes regulated by arachidonic acid and, in Raji cells, 1157  
 regulation of palmitoyl-coenzyme A chain elongation and its contribution to, formation investigated in rat liver, 531

**OLIVE OIL**

comparison of effects of dietary sunflower oil and virgin, on rat exocrine pancreatic secretion *in vivo*, 1119  
 transfer of carotenoids from carrot juice and homogenized spinach into, under conditions pertaining to gastric environment, 933

**OPTIMIZATION**

of methods for fatty acid analysis in various sample types present in the marine environment, 781

**ORGANOSULFUR COMPOUNDS**

protective action on human low density lipoprotein against oxidation and glycation by four, derived from garlic, 219

**ORLISTAT**

effect of, on fat absorption in rats, 1039

**Oryza sativa**

cultivar of japonica rice used in determination of lipid and fatty acid contents, 881

**OXIDATION**

effect of temperature and addition of  $\alpha$ -tocopherol on the, of trilinolein model systems, 233

*in vivo* polyunsaturated fatty acid, processes, 551

protective action on human low density lipoprotein against, and glycation by four organosulfur compounds derived from garlic, 219

 **$\beta$ -OXIDATION**

and carbon recycling, 477

of fatty acids increases in stimulated lymphocytes, 1221

raised intake of  $\alpha$ -linolenic acid in pigs reduces, of linoleic acid by 60%, 187

**OXIDATIVE INACTIVATION**

protective action of conjugated linoleic acid against, of paraoxonase 1, 615

**OXIDIZED FAT**

effects of fresh and heat-treated dietary, on expression and activities of hepatic lipogenic enzymes in rats, 31

**OXIDIZED LIPOPROTEINS**

causal relation between, and development of atherosclerosis, 1287

**OXIDIZED TRIACYLGLYCEROL**

effects of temperature and addition of  $\alpha$ -tocopherol evaluated in trilinolein model systems through quantification of, monomers, 233

**OXIDOSQUALENE CYCLASE**

conjugated methyl sulfide and phenyl sulfide derivatives of oxidosqualene as inhibitors of, and squalene-hopene cyclase, 201

**OXYSTEROL**

and programming of bile acid pathways by infant diet, 1213

**P****PALM OIL**

interactive effects of dietary, concentration and water temperature on lipid digestibility in rainbow trout, 1031

**PALMITIC ACID**

and premature baboon lung fatty acids, 425

**PALMITOYL-COENZYME A CHAIN ELONGATION**

regulation by carbohydrate and clofibrate acid of, in the liver of rats, 531

**PALMITOYL-COENZYME A OXIDASE**

at end of feeding period, measured in liver subcellular fractions, 957

**PARAOXONASE 1**

protection of, by conjugated linoleic acid, 615

**PARTIALLY HYDROGENATED VEGETABLE OILS**

hypothesized that isomer profile of individual *trans*-octadecenoate acids in human milk could be used to assess relative contributions of, 1143

**PARTITIONING**

lipid molarity affects aroma, and release from oil/water emulsions, 1075

**PATATIN**

determination of phospholipase activity of, by continuous spectrophotometric assay, 677

**Paullinia cupana**

seed oil composition of, 773

**Paullinia sorbilis**

seed oil composition of, 773

**PAULLINIC ACID**

is abundant component of oil from *Paullinia cupana*, 773

**Penicillium cyclopium**

cloning of an alkaline lipase gene from, and its expression in *Escherichia coli*, 191

**Penicillium roquefortii**

four different immobilized lipases tested including, 1197

**PEPSIN**

for both carrots and spinach, hydrolyzes insoluble protein and enhances transfer of carotenoids to oil, 933

**PERIVENTRICULAR LEUCOMALACIA**

complications of preterm, very-low-birth-weight babies include, 303

**PEROXIDASE**

linoleate diol synthase of the rice blast fungus *Magnaporthe grisea*, 1275

**PEROXIDES**

protection against inactivation of paraoxonase 1 by, 615

**PEROXIDE VALUE**

method for determination of, 1179

**PEROXISOME PROLIFERATOR-ACTIVATED RECEPTOR  $\alpha$**   
 is not exclusive mediator of effects of dietary cyclic fatty acids in mice, 957

mediated transcripts altered after fenofibrate treatment, 497

**PEROXISOME PROLIFERATOR-ACTIVATED RECEPTOR  $\gamma$** 

regulatory protein associated with adipocyte differentiation, 289

**PEROXYGENASE**

isolation of unsaturated diols after oxidation of conjugated linoleic acid with, 255

**Petunia hybrida**

digalactosyldiacylglycerol is major glycolipid in floral organs of, 1107

**PHAGOCYTOSIS**

investigation of functional impact on macrophage, 633

**PHASE TRANSITION**

lipid, from liquid to solid state does not affect flavor partitioning and release, 1075

## PHENYL SULFIDES

conjugated methyl sulfide and, derivatives of oxidosqualene as inhibitors of oxidosqualene and squalene-hopene cyclases, 201

## PHOSPHATIDYLCHOLINE

accumulation of  $\beta$ -carotene and lutein in plasma and liver suppressed by, 705

characterization of glycerophosphocholine phosphodiesterase activity and, biosynthesis in cultured retinal microcapillary pericytes, 45

oxidation of, 65

preservation of docosahexaenoic acid in cell membrane lipid, and phosphatidylethanolamine necessary for self-protection functions in starving fish, 1263

with polyunsaturated acyl groups is derived from fatty acid desaturation, 651

## PHOSPHATIDYLETHANOLAMINE

preservation of docosahexaenoic acid in cell membrane lipid phosphatidylcholine and, necessary for self-protection functions in starving fish, 1263

## PHOSPHATIDYL SERINE

is important component for observed protective effect of docosahexaenoic acid, 453

## PHOSPHOLIPASE

determination of, activity of patatin by continuous spectrophotometric assay, 677

PHOSPHOLIPASE A<sub>2</sub>

detoxification of phospholipid hydroperoxides by, in rat gastric mucosa, 641

## PHOSPHOLIPASE D

determination of activity of *N*-acylethanolamine phospholipid-hydrolyzing in brain membrane preparations from adult and 3-d-old mice, 387

## PHOSPHOLIPID(S)

cholesteryl esters and, in maternal and cord plasma, 1

effect of conjugated linoleic acid supplementation on, 805

examination of absorption of plasmalogen in bovine brain, incorporated into test diets, 1227

fatty acids from, of activated sludges and extracted extracellular polymeric substances determined on samples from two wastewater treatment plants, 1093

hyperphagia modifies fatty acid profiles of plasma, plasma free fatty acids, and adipose tissue triacylglycerols, 1127

in milk fat by phosphorus-31 nuclear magnetic resonance, 585

investigation of, of Indian Ocean tunicates, 81

light-scattering detection of, resolved by high-performance liquid chromatography, 999

study as to whether conjugated linoleic acid isomers and other C<sub>18</sub> fatty acids affect fatty acid synthesis from glucose in triacylglycerols and, of primary brown and white adipocytes, 1133

## PHOSPHOLIPID ENZYMES

assays of, 45

## PHOSPHOLIPID FATTY ACID COMPOSITION

measurement of, of liver and erythrocytes in monkeys fed control or low-protein diet during postweaning period, 525

## PHOSPHOLIPID HYDROPEROXIDES

detoxification of, in rat gastric mucosa, 641

## PHOSPHORUS-31 NUCLEAR MAGNETIC RESONANCE

quantitative characterization of phospholipids in milk fat by, 585

## PHOTODEGRADATION PRODUCTS

origin of *cis*-vaccenic acid, marine environment, 1085

## PHOTO OXIDATION

of the phytol chain and subsequent alkaline hydrolysis, 241

## PHYTANIC ACID

identified for first time in tunicates, 81

## PHYTOPLANKTON

determination whether autoxidative process may operate on the chlorophyll phytol side chain in senescent, cells, 241

## PHYTOSTEROL(S)

and human lipid metabolism, 367

effect of policosanol and, on lipid levels and cholesterol biosynthesis in hamsters, 165

plant sterols or, are dietary components that reduce blood total and low density lipoprotein cholesterol levels, 713

## PIEZOPHILIC BACTERIA

phospholipid fatty acids of, from the deep sea, 885

## PIG

inflammation and polyunsaturated fatty acid metabolism in the, 1221

## PIGLET

dietary  $\alpha$ -linolenic acid increases n-3 polyunsaturated fatty acid content of sow's milk and tissues of suckling, 1045

## PLACENTA

fatty acid concentrations in, 561

## PLANT SECONDARY METABOLITES

used as models for biochemical studies, 981

## PLANT STANOLS

comparative health effects of margarines fortified with plant sterols and, on a rat model for hemorrhagic stroke, 1237

## PLANT STEROLS

comparative health effects of margarines fortified with, and plant stanols on a rat model for hemorrhagic stroke, 1237

effect of structure and form on ability of, to inhibit cholesterol absorption in hamsters, 713

## PLASMA

prolonged excessive energy intake in rats alters fatty acid composition of, phospholipids and adipose tissue triacylglycerols, 1127

## PLASMALOGEN

absorption of, 1227

## POLARITY

processes depend on, of volatiles and are governed by Nernst's law of partitioning, 1075

## POLICOSANOL

effect of, and phytosterols on lipid levels and cholesterol biosynthesis in hamsters, 165

## POLYAMINES

experiments involving action of, on bacterial and microsomal glycerocephosphate acyltransferase mostly done in presence of bovine serum albumin, 965

## POLYDIPSIA

symptom of, reported among children with attention-deficit/hyperactivity disorder as well as those with essential fatty acid deficiency, 1007

## POLYMERS

effects of temperature and addition of  $\alpha$ -tocopherol evaluated in trilinolein model systems through quantification of, 233

## POLYPRENOLE

polyisoprenoid alcohols of plant *Coluria geoides* isolated and analyzed to determine nature of, and dolichol mixture in various plant organs, 981

## POLYUNSATURATED FATTY ACID(S)

desaturation in salmon fed vegetable oil, 723

detected in trace amounts in *Cystodytes violatinctus* and *Eudistoma bituminis*, 81

dietary  $\alpha$ -linolenic acid increases n-3, 1045

dietary intakes and food sources of n-6 and n-3, 391

inflammation and, metabolism in pigs, 1221

n-3, and inflammation, 343

oils used in study contained either n-3 or n-9, 603

requirement for, high for pregnant women and developing fetus, 1

whole-body utilization of n-3, in n-6, -deficient rats, 187

## n-3 POLYUNSATURATED FATTY ACID(S)

and the immune system, 323

biomarker of, compliance in patients taking fish oil for rheumatoid arthritis, 419

dietary, increased iron absorption but did not restore hypoferremia associated with inflammation in rats, 821

effect of dietary, on bone cell functions and bone modeling parameters, 683

hypotriglyceridemic effect of dietary, is associated with stimulation of fatty acid oxidation in the liver and to smaller extent in skeletal muscle, 1023

intermediate, in trout, 925

maternal dietary fatty acid modulates long-chain, status of broiler chick cardiac tissue, 1257

which of the, should be called essential, 1113

## n-6 POLYUNSATURATED FATTY ACID(S)

and the immune system, 323  
very long chain, in mammalian testes, 73

**POLYUNSATURATED FATTY ACID BIOAVAILABILITY**  
higher after liposome administration than after fish oil administration, 551

**POLYUNSATURATES**  
baboon lung fatty acids and supplementation with long-chain, 425

**POLYUNSATURATION**  
nature of perturbations caused by, 445

**POLYURIA**  
symptom of, reported among children with attention-deficit/hyperactivity disorder as well as those with essential fatty acid deficiency, 1007

**POSITIONAL DISTRIBUTION**  
magnitude of postprandial lipemia is altered by, of saturated fatty acids in ingested fat, 693

**POSTMORTEM**  
routine, toxicology screening tests of blood ethanol level and other drugs, 269

**POSTPRANDIAL LIPEMIA**  
increased, is risk factor for cardiovascular disease, 693

**PREADIPOCYTE**  
*in vitro* method for studying proliferation and differentiation of, in Atlantic salmon, 289

**PREGNANCY**  
fatty acid composition of cholesterol esters and phospholipids in maternal plasma during, and at delivery and in cord plasma at birth, 1  
high-docosahexaenoic acid eggs in late, 407

**PREMATURE LUNG**  
influence of dietary long-chain polyunsaturated fatty acid on baboon, fatty acids and dipalmitoyl phosphatidylcholine, 425

**PREMATURITY**  
complications of preterm, very-low-birth-weight babies include retinopathy of, 303

*Premna microphylla*  
new glycerolipid and ceramide from, 1299

**PREPARATIVE SILVER ION THIN-LAYER CHROMATOGRAPHY**  
of fatty acid methyl esters, 1173

**PREVENT**  
diets could, many diseases, 317

**PRIMARY CULTURE**  
proliferation and differentiation studied in preadipocytes grown in, 289

*Primula nutans*  
seed oil fatty acid fingerprint of, 1173

**PRIMULACEAE**  
isomers of hexadecenoic and hexadecadienoic fatty acids in *Androsace septentrionalis*, seed oil, 1173

**PROLIFERATION**  
correlate effects of fatty acids on cytokine production, cell, and cytotoxicity with changes in gene expression, 1157

**PROSTAGLANDINS**  
effect of conjugated linoleic acid on secretion of, 377

**PROSTANOIDS**  
localization of, within a soft coral, 991

**PROTECTION**  
of paraoxonase 1 by conjugated linoleic acid, 615

**PROTEIN ADDUCT**  
mechanism of, formation, 873

**PROTEIN ISOPRENYLATION**  
evaluation of possible involvement of, in desaturase activity, 841

**PROTEINURIA**  
dietary conjugated linoleic acid decreased weight loss and extended survival following onset of, in F1 hybrid New Zealand Black/White mice, 21

**PROTEOLYSIS**  
sterol-mediated, may be involved in loss of hormone-sensitive lipase protein, 743

**PROTON MAGNETIC RESONANCE SPECTROSCOPY**  
intramyocellular lipid metabolism using, 9

**Q**

**QUANTITATIVE ANALYSIS**  
methyl ester derivatives must be formed before qualitative and, of fatty acids in cold-water marine samples, 781  
of phospholipids in milk fat by phosphorus-31 nuclear magnetic resonance, 585

**R**

**RABBITS**  
evaluation of apolipoprotein A-I kinetics in, *in vivo* using *in situ* and exogenous radioiodination methods, 209

**RAINBOW TROUT**  
interactive effects of dietary palm oil concentration and water temperature on lipid digestibility in, 1031

**RANDOMIZED OIL**  
measure effect of orlistat on lymphatic fat transport after administration of safflower oil, fish oil, and a, 1039

*Ranunculus repens*  
extracts of seeds of, used as reference substances for comparison and co-chromatography, 1173

**RAP1**  
over 48-h time span geranylgeraniol is able to maintain, isoprenylation in continuing presence of lovastatin, 751

**RAPESEED OIL**  
polyunsaturated fatty acid desaturation in salmon fed linseed oil, fish oil, and, 723

**RAS**  
over 48-h time span farnesol is unable to maintain, isoprenylation in continuing presence of lovastatin, 751

**RAT(S)**  
comparative effects of flaxseed and sesame seed on vitamin E and cholesterol levels in, 1249  
development of intestinal alkaline sphingomyelinase in, fetus and newborn, 545  
effect of orlistat on fat absorption in, 1039  
effects of dietary thermoxidized fats on expression and activities of hepatic lipogenic enzymes in the, 31  
hepatic metabolism of conjugated linoleic acid in the, 157  
impact of dietary n-3 fatty acid deficiency on, bone tissue fatty acid composition, 683  
ingestion of plasmalogen markedly increased plasmalogen levels of blood plasma in, 1227  
prolonged excessive energy intake in, alters fatty acid composition of plasma phospholipids and adipose tissue triacylglycerols, 1127  
recoveries of, lymph fatty acids after administration of specific structured <sup>13</sup>C-triacylglycerol, 903  
sardine oil-rich diet increases iron absorption but does not compensate the hypoferremia associated with inflammation in the, 821  
whole-body utilization of n-3 polyunsaturated fatty acids in, that are n-6 polyunsaturated fatty acid-deficient, 187

**RAT HEPATIC MICROSOME(S)**  
2-hydroxyestradiol 17-sulfate disappeared from, within 2 h after administration, 847

**RAT HEPATOCYTE GENE EXPRESSION**  
inhibition of cholesterol acyltransferase reported to supply substrate for bile acid synthesis and induce, 53

**REACTION SYSTEM**  
oxidizability of polyunsaturated glycerophospholipids in, 65

**RECIPROCAL REPLACEMENT**  
of docosahexaenoic acid by docosapentaenoic acid in rats, 431

**RED WINE**  
effects of, consumption on kidney fatty acid composition, 275

**REGIOSPECIFIC ANALYSIS**  
by ethanolysis of oil with immobilized *Candida antarctica* lipase, 1281

**RELATIVE FATTY ACID COMPOSITIONS**  
in placental lipid fractions, 561

REMOTE FUNCTIONALIZATION  
of unactivated carbon atoms in steroids, 281

REPLETION  
with control diet unable to nullify hypertensive effects of perinatal n-3 polyunsaturated fatty acid deficiency, 459

RETINA PERICYTES  
oxidative stress able to exacerbate cytotoxic effect in, 45

RETINOID X RECEPTOR  
plausible that docosahexaenoic acid operates as ligand for, in developing brain, 303

REVERSE-TRANSCRIPTION POLYMERASE CHAIN REACTION  
quantitative analysis by, to determine effects of 25-hydroxycholesterol on expression of hormone-sensitive lipase mRNA, 743

REVERSED-PHASE HIGH-PERFORMANCE LIQUID CHROMATOGRAPHY  
tentative identification and quantification of triacylglycerol core aldehydes as dinitrophenylhydrazones in autoxidized sunflowerseed oil using, with electrospray ionization mass spectrometry, 1179

RHEUMATOID ARTHRITIS  
biomarker of n-3 compliance in patients taking fish oil for, 419

RICE SEEDS  
lipid synthesis and acyl-coenzyme A synthetase in developing, 881

**S**

SAFFLOWER OIL  
measure effect of orlistat on lymphatic fat transport after administration of, fish oil, and a randomized oil, 1039

SAPINDACEAE  
seeds of many species of, rich in oils that contain acylglycerols and cyanolipids, 773

SATURATED FAT  
plasma leptin concentrations lower in, diet, 513

SCAVENGER RECEPTOR-CLASS B1 mRNA  
level of hepatic, in enzyme-resistant fraction of tebou starch group was significantly higher than in the cellulose powder group, 919

SECOISOLARICIRESINOL DIGLYCOSIDE  
scavenges hydroxyl radicals in *in vitro* experiments, 1249

SECONDARY METABOLITES  
impact of environment on production of, by plants, 567

SEED OILS  
*Androsace septentrionalis* studied for fatty acid composition and content of, 1173  
novel isomeric octadecatrienoic acid from, of *Chrysanthemum zawadskii* herb, 573

SEIZURE  
brain levels of N-acylethanolamine phospholipids in mice during pentylentetrazol-induced, 387

SELENIUM  
effect of oxidized fats is independent of vitamin E and, supply, 31

SENESCENCE  
photochemical oxidation and autoxidation of chlorophyll phytol side chain in phytoplanktonic cells during, 241

SERUM CHOLESTEROL  
enzyme-resistant fractions of beans lowered, and increased sterol excretions and hepatic mRNA levels in rats, 919

SERUM PHYTOSTEROLS  
aortic and, in rabbits fed sitosterol or sitostanol esters, 1115

SESAME SEED  
comparative effects of flaxseed and, on vitamin E and cholesterol levels in rats, 1249

SESAMIN  
sesame seed and its lignan, have strong lowering effect on concentrations of thiobarbituric acid-reactive substances, 1249

SHORT-CHAIN FATTY ACID  
cecal, and fecal lipid concentrations, 919

SILVER-ION HIGH-PERFORMANCE LIQUID CHROMATOGRAPHY  
detailed analysis of minor conjugated linoleic acid isomers achieved by, 657

SIMVASTATIN  
decreased cholesterol synthesis and enhanced linoleic acid conversion, 841

SINGLE-CELL OIL  
estimated pathway in ethanolysis of, 1281

SITOSTANOL  
serum and aortic levels of photosterols in rabbits fed sitosterol or, ester preparations, 1115

SITOSTEROL  
serum and aortic levels of photosterols in rabbits fed, or sitostanol ester preparations, 1115

SKELETAL MUSCLE  
hypotriglyceridemic effect of dietary n-3 polyunsaturated fatty acids is associated with stimulation of fatty acid oxidation in the liver and to smaller extent in, 1023

long-chain fatty acid uptake by, is impaired in homozygous heart-type-fatty acid-binding protein null mice, 491

SMALL INTESTINE  
digestion and assimilation features of dietary diacylglycerol in the, of the rat, 25

SOFT CORAL  
prostanoid localization with a, 991

SOIL IMPACT  
and nonpolar lipid composition of *Chenopodium album*, 567

SOLID FAT CONTENT  
evaluation of, at various temperatures using differential scanning calorimeter, 913

SOLID-PHASE EXTRACTION  
phospholipids present in surfactant homogenates separated by, procedure before high-performance chromatography analysis, 999

SOLUBILIZATION  
modeling duodenal environment through, of carotenoids from carrot juice and spinach in lipid phases, 947

modeling gastric lumen through, of carotenoids from carrot juice and spinach in lipid phases, 933

SOLVENT  
lipase-catalyzed methanolysis of triricinolein in organic, to produce 1,2(2,3)diricinolein, 1197

SOYBEAN OIL  
diets containing high levels of, lead to high endogenous levels of n-6 fatty acids in Atlantic salmon hepatocytes, 833

SPECIFIC STRUCTURED TRIACYLGLYCEROL  
production of, by batch interesterification of caprylic acid and linoleic acid, 903

SPHINGOLIPIDS  
N-deacylase catalyzes condensation reaction between free fatty acids and, 855

SPHINGOMYELINASE  
development of intestinal alkaline, in rat fetus and newborn rat, 545

SPINACH  
modeling duodenal environment through solubilization of carotenoids from carrot juice and, in lipid phases, 947

SPLENOCYTE PROLIFERATION  
effects of conjugated linoleic acid supplementation on, 377

SPRAGUE-DAWLEY RAT  
importance of perinatal n-3 polyunsaturated fatty acid supply in control of blood pressure in adult, 459

SQUALENE-HOPENE CYCLASE  
conjugated methyl sulfide and phenyl sulfide derivatives of oxidosqualene as inhibitors of oxidosqualene cyclase and, 201

STABILITY  
oxidative, of n-3 fatty acids, 551

STABILIZATION  
effect of conjugated linoleic acid on paraoxonase 1 investigated for protective action against oxidative inactivation and, activity, 615

STARVATION  
effect of, on lipid metabolism and stability of docosahexaenoic acid in horse mackerel, 1263

STATIN  
restoration of impaired hepatic fatty acid  $\beta$ -oxidation by administration of

novel, to aromatase-deficient mice, 519

**STEARIC ACID**  
triglycerides containing, synthesized from coconut oil exhibit lipidemic effects in rats similar to those of cocoa butter, 913

**STEAROYL-COENZYME A DESATURASE**  
at end of feeding period, measured in liver subcellular fractions, 957

**STEROIDS**  
significant and long-term problems caused by, used in treatment of very-low-birth-weight preterm infants, 303

**STEROLS**  
were found in the fatty acid methyl ester mixture from native 12-kDa protein complex, 769

**STERYLYGLYCOSIDE**  
increase in biosynthetic activity of, 1107

**STILLMAN-SALGADO RATS**  
hepatic  $\Delta 9$ -,  $\Delta 6$ -, and  $\Delta 5$ -desaturations in non-insulin-dependent diabetes mellitus, 827

**STORAGE**  
effect of, of diatom *Chaetoceros gracilis* on determination of lipid class composition, 1191

**STROKE-PRONE SPONTANEOUSLY HYPERTENSIVE RATS**  
comparative health effects of margarines fortified with plant sterols and plant stanols on, 1237

**STRUCTURE-ACTIVITY RELATIONSHIP**  
of lysophosphatidic acid, 1057

**STRUCTURED LIPIDS**  
stearic acid-enriched, 913

**SUBSTRATE SELECTIVITY**  
of mitochondrial acylcarnitine synthesis pathway, 485

**SUCKLING**  
dietary  $\alpha$ -linolenic acid increases n-3 polyunsaturated fatty acid content of sow's milk and tissues of, piglet, 1045

**SUCROSE DIET**  
effect of, on hepatic activity of  $\Delta 6$ - and  $\Delta 5$ -desaturases, 733

**SULFOGLYCOLIPID**  
chemical synthesizing of naturally occurring, 1065

**SULFOQUINOVOSYL DIACYLGLYCEROL**  
potent inhibitor of mammalian deoxyribonucleic acid polymerases and deoxyribonucleic acid topoisomerase II, 1065

**SULFOQUINOVOSYL MONOACYLGLYCEROL**  
potent inhibitor of mammalian deoxyribonucleic acid polymerases and deoxyribonucleic acid topoisomerase II, 1065

**SUNFLOWER OIL**  
comparison of effects of dietary, and virgin olive oil on rat exocrine pancreatic secretion *in vivo*, 1119

**SUNFLOWERSEED OIL**  
tentative identification and quantification of triacylglycerol core aldehydes as dinitrophenylhydrazones in autoxidized, using reversed-phase high-performance liquid chromatography with electrospray ionization mass spectrometry, 1179

**SURVIVAL**  
dietary conjugated linoleic acid decreased weight loss and prolonged, in F1 hybrid New Zealand Black/White mice, 21

**Symbiodinium**  
preparation of high-purity, fraction using protease and detergent, 991

**SYNTHESIS**  
and isolation of *trans*-7, *cis*-9-conjugated linoleic acid, 579

tissue deposition of n-3 fatty acid pathway intermediates in the, of docosahexaenoic acid in rainbow trout, 925

**T**

**TAMOXIFEN**  
potent antagonist of estrogen, 519

**TANDEM MASS SPECTROMETRY**  
molecular level information of individual lipoprotein triacylglycerol regiosomers obtained with, method, 693

**TEMPERATURE**  
influence of, and high dietary linoleic acid content on esterification, elongation, and desaturation of polyunsaturated fatty acids in Atlantic salmon hepatocytes, 833

**TEMPOL**  
hydrophilic nitroxyl radical, 4-hydroxy-2,2,6,6-tetramethylpiperidine-*N*-oxyl, inhibited methyl linoleate oxidation induced by free radicals, 225

**TETRACOSAHEXAENOIC ACID**  
metabolism of tetracosapentaenoic acid and, in human skin fibroblasts, 469

occurrence of high levels of, in the jellyfish *Aurelia* sp., 1207

**TETRACOSAPENTAENOIC ACID**  
 $\Delta 6$ -desaturation required for conversion of, to docosahexaenoic acid, 469

**TETRAMETHYLLAMMONIUM HYDROXIDE**  
monoglutathion-S-yl derivative of  $\gamma$ -tocopheryl quinone subjected to thermal-cleavage with, 973

**TETRASUBSTITUTED**  
synthesis of novel trisubstituted and,  $C_{18}$  furan fatty esters, 1293

**THERMOCHEMOLYSIS**  
of tocopherol quinone adducts, 973

**THIN-LAYER CHROMATOGRAPHY IMMUNOSTAINING**  
main gangliosides from bovine milk were purified by preparative, 761

**THIOBARBITURIC ACID-REACTIVE SUBSTANCES**  
sesame seed and its lignan, sesamin, have strong lowering effect on concentrations of, 1249

**THIOLYCOLATE ELICITATION**  
of macrophages characterized by increased phagocytic capacity, plasma membrane turnover and high activity of lysosomal enzymes, 633

**TIME-RESOLVED FLUORESCENCE**  
proteins purified and characterized by application to steroid receptor coactivator-1 binding assay using, 1149

**$\alpha$ -TOCOPHEROL(S)**  
effect of temperature and, on trilinolein oxidation, 233

effect of vitamin E supplementation on, 813

may serve as hydrogen donors to suppress cyclization of internal hydroperoxy radicals, 65

**$\gamma$ -TOCOPHEROL(S)**  
differential effects of flaxseed and sesame seed on plasma and tissue, 1249

effect of vitamin E supplementation on, 813

**TOCOPHERYL QUINONES**  
electrophile, in apoptosis and mutagenesis, 973

**TRANSACYLATION**  
of buttermilk gangliosides, 855

**TRANSESTERIFICATION**  
enzymatic, recommended for industrial-scale production of consumer goods, 855

**TREMATODE**

**TRIACYLGLYCEROL(S)**  
chylomicron and very low density lipoprotein, structures, 693

digestion and assimilation of 1,3-diacylglycerol in the rat intestine may be responsible for reduction of postprandial serum, level, 25

docosahexaenoic acid in, decreased during starvation in horse mackerel, 1263

effect of conjugated linoleic acid supplementation on, 805

from seed oil of *Paullinia cupana* var. *sorbilis*, 773

hyperphagia modifies fatty acid profiles of plasma phospholipids, plasma free fatty acids, and adipose tissue, 1127

increased consumption of fish as source of n-3 fatty acids beneficially associated with levels of high density lipoprotein cholesterol and, 359

study as to whether conjugated linoleic acid isomers and other  $C_{18}$  fatty acids affect fatty acid synthesis from glucose in, and phospholipids of primary brown and white adipocytes, 1133

tentative identification and quantification of, core aldehydes as dinitrophenylhydrazones in autoxidized sunflower seed oil using reversed-phase high-performance liquid chromatography with electrospray ionization mass spectrometry, 1179

very long chain polyunsaturated fatty acids in murine testicular, and cholesterol esters, 73

fatty acids of, *Fasciola hepatica* native 12-kDa protein, 769

**TRIACYLGLYCEROL,  $^{13}C$ -LABELED**  
recoveries of rat lymph fatty acids after administration of specific structured, 903

**TRIACYLGLYCEROL BIOSYNTHESIS**

biosynthesis of membrane phospholipids closely linked to, in developing oilseeds, 651

**TRIACYLGLYCEROL MONOHYDROPEROXIDES**

simple chemical synthesis of, 1287

**TRIACYLGLYCEROL SYNTHESIS**

report of convenient chemical, 1287

**TRIGLYCERIDE(S)**

oral administration in hamsters of policosanol mixture isolated from sugar cane wax had no influence on levels of, 165

lipoprotein lipase major enzyme involved in hydrolysis of plasma, 687

**TRILINOLEIN**

effect of temperature and  $\alpha$ -tocopherol on, oxidation, 233

**TRISUBSTITUTED**

synthesis of novel, and tetrasubstituted  $C_{18}$  furan fatty ester, 1293

**TROLOX®**

hydrophilic antioxidant, less effective in preventing cyclization of internal hydroperoxy radicals, 65

**TROPICAL FISH**

accumulation of specific fish fat deposits in flesh of, 399

**TROUT**

intermediate n-3 polyunsaturated fatty acids in, 925

**TUMOR NECROSIS FACTOR- $\alpha$** 

combined effects of essential fatty acids deficiency and, on circulating lipoproteins in rats, 595

**TUNA OIL**

fatty acid compositions at 2-position in cocoa fat, borage oil, and, analyzed by Grignard degradation and enzymatic ethanolysis, 1281

**TUNICATES**

phospholipid fatty acids from Indian Ocean, *Eudistoma bituminis* and *Cystodytes violatinctus*, 81

**U****ULTRASONICATION**

effect of, and grinding on determination of lipid class content of microalgae harvested on filters, 1191

**UNACTIVATED CARBON**

functionalization of, in 3 $\alpha$ ,6- and 3 $\alpha$ ,24-dihydroxy-5 $\beta$ -cholane derivatives by dimethyldioxirane, 281

**UNCOUPLING PROTEIN**

in primary brown adipocytes of Djungarian hamsters, 1133

**UNSATURATED FATTY ACIDS**

effects of c9,11-conjugated linoleic acid similar to those of other  $C_{18}$ , 1133

**V****VACCENIC ACID**

converted to conjugated linoleic acid in cancer cells, 623

is abundant constituent of cyanolipid fraction from guaraná oil, 773

**CIS-VACCENIC ACID**

origin of, photodegradation products in marine environment, 1085

**TRANS-VACCENIC ACID**

conjugated linoleic acid and, in milk fat, 657

**VASODILATION**

fatty acids and endothelium-dependent, 15

**VERY LONG CHAIN POLYENOIC FATTY ACIDS**

role of, in sustaining spermatogenesis in mammalian testis, 73

**VERY LONG CHAIN POLYUNSATURATED FATTY ACIDS**

generally occur only as minor components in marine organisms, 1207

**VERY LOW DENSITY LIPOPROTEIN**

chylomicon and, triacylglycerol structures, 693

role of lipoprotein lipase and apolipoprotein C-II in, metabolism, 687

**VERY LOW DENSITY LIPOPROTEIN SECRETION**

activation of cholesterol ester metabolism and biliary cholesterol secretion and inhibition of, 53

**VITAMIN E**

comparative effects of flaxseed and sesame seed on, and cholesterol levels in rats, 1249

effect of oxidized fats is independent of, and selenium supply, 31

**W****WATER ACTIVITY**

lower, gave higher yield of diricinolein with any enzymes in any solvents generally, 1197

**WATER TEMPERATURE**

interactive effects of dietary palm oil concentration and, on lipid digestibility in rainbow trout, 1031

**WEANING**

short-term, had no effect on alkaline sphingomyelinase activity, 545

**WEEDS**

group of plants with great adaptability to environmental changes, 567

**WESTERN BLOT**

analysis of hormone-sensitive lipase in 3T3-L1 adipocytes by, 743

**Z****ZOOXANTHELLAE**

contain mainly glycolipids and few phospholipids, 991
